(57) **CLAIM**

I claim the ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with transitional graphical user interface;

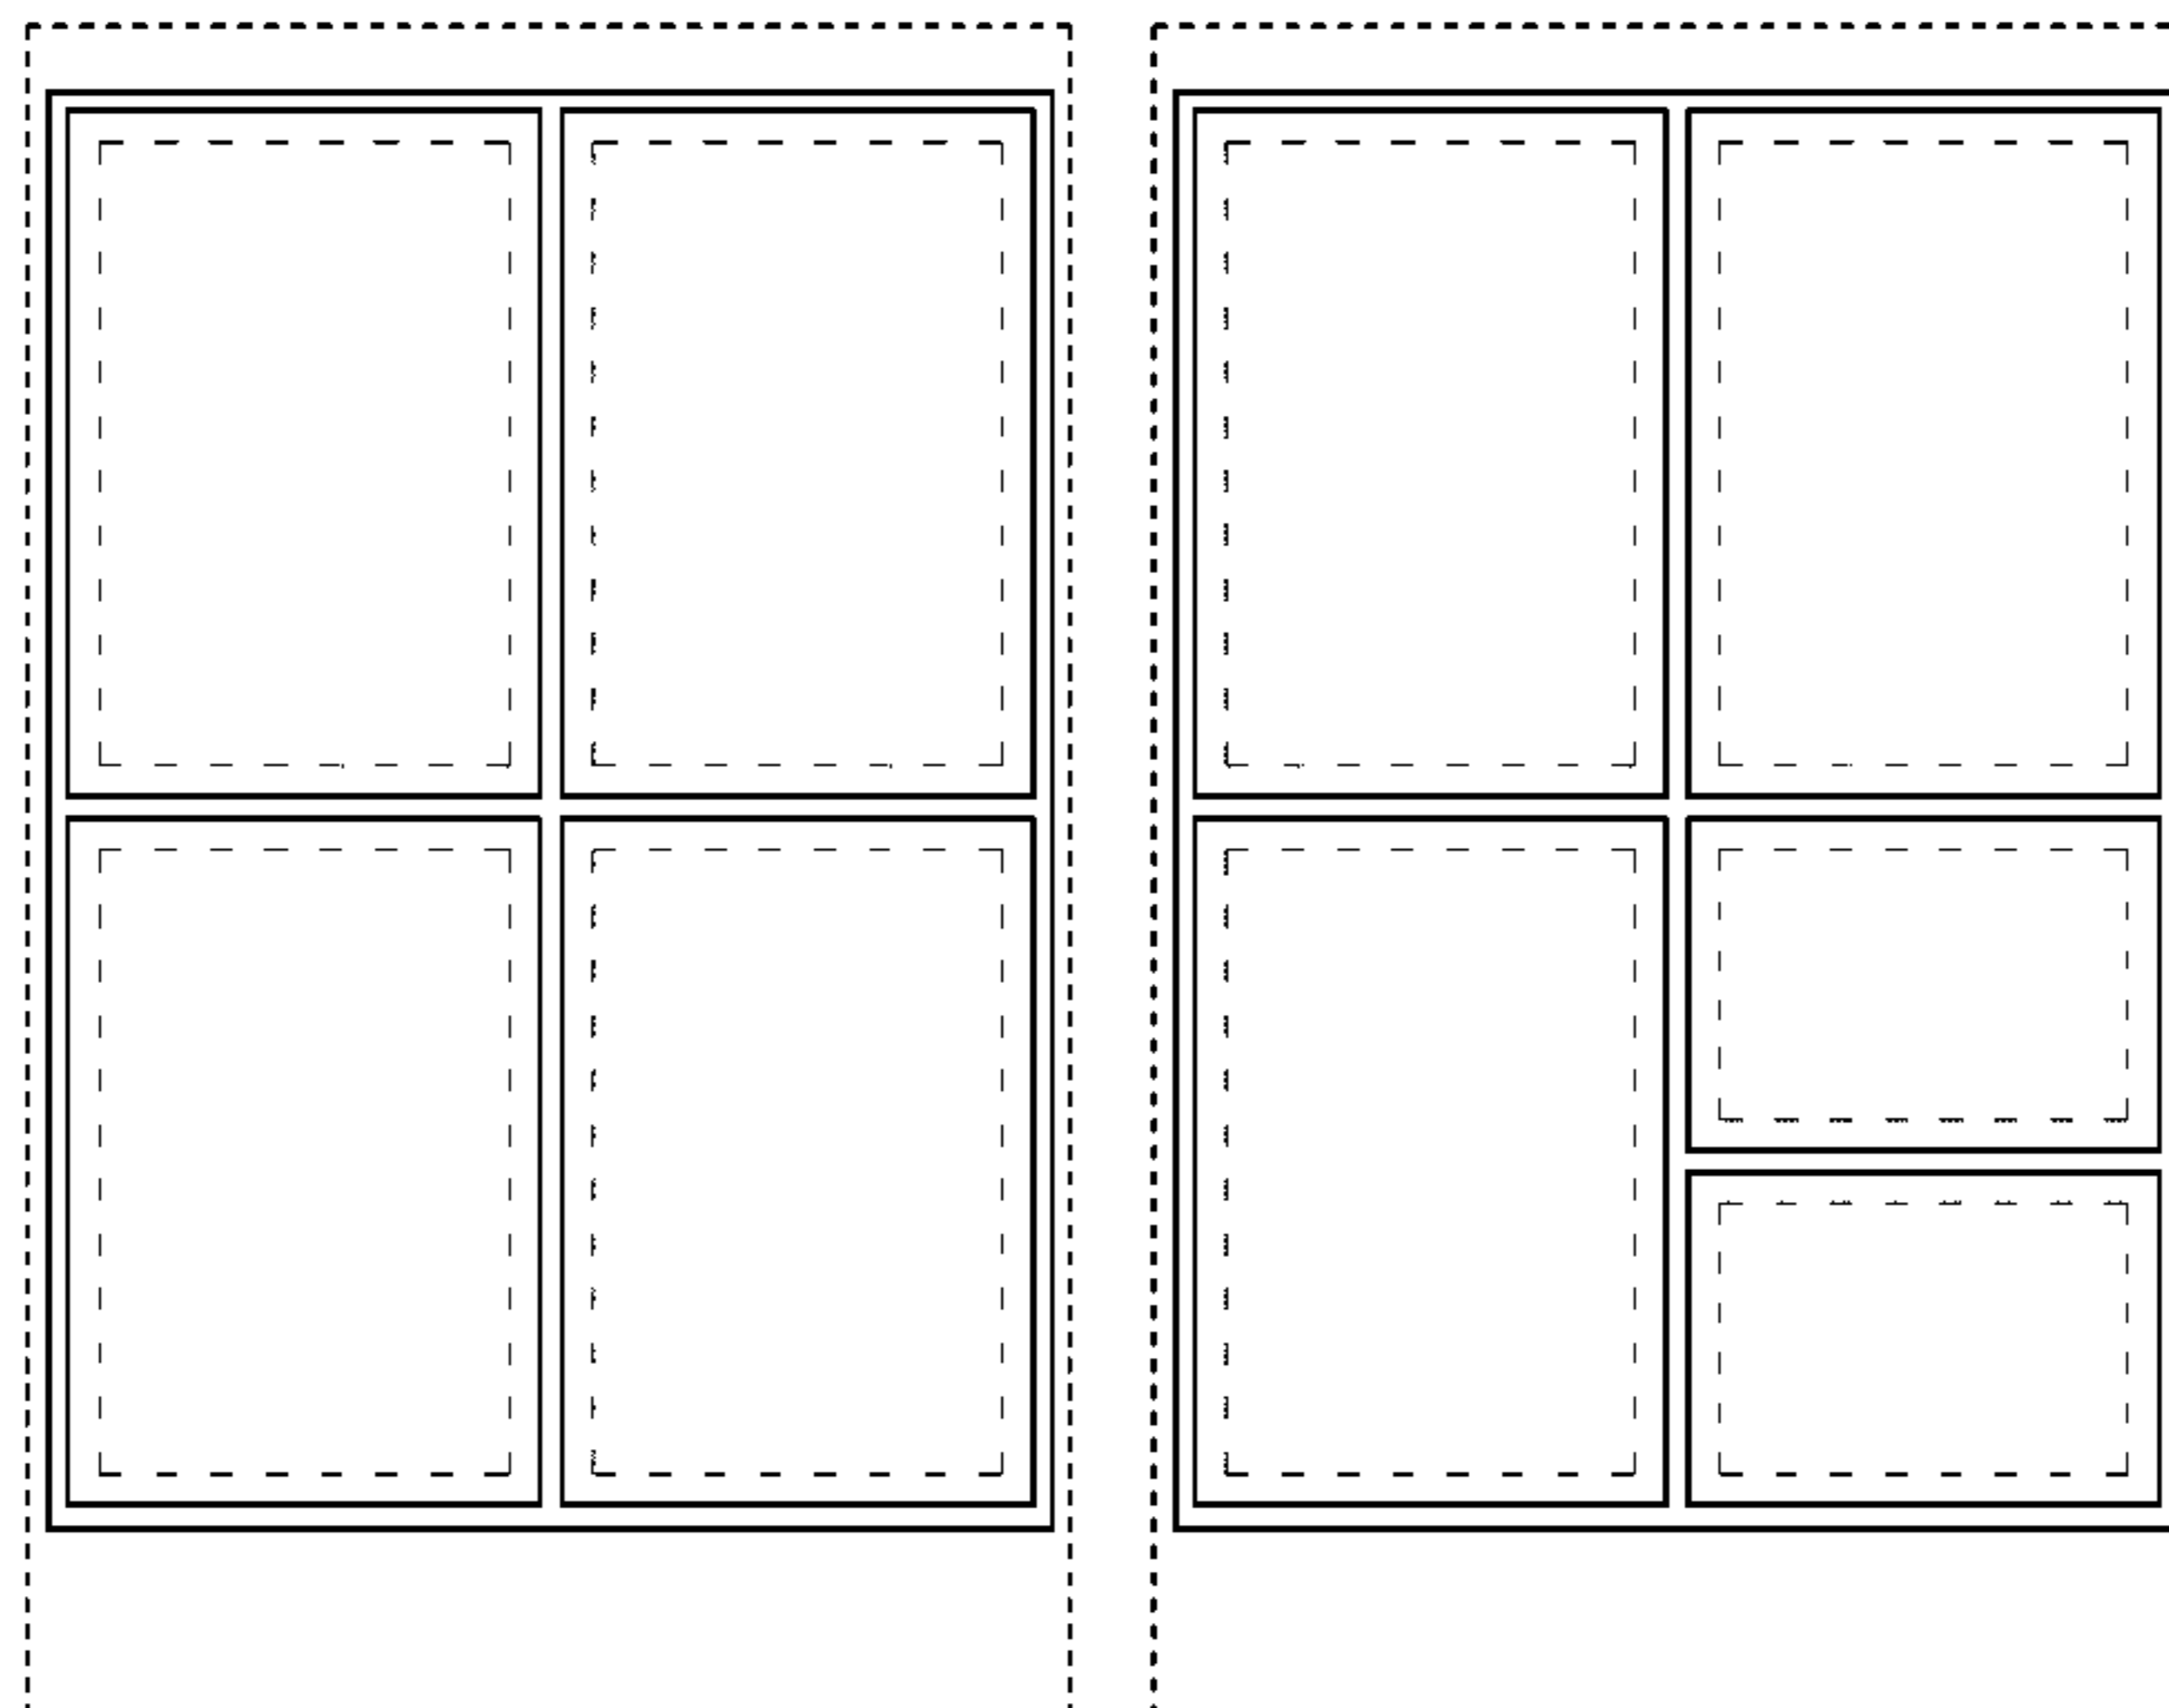

FIG. 2 is a front view of the display screen with transitional graphical user interface after sequentially transitioning from the view of FIG. 1;

FIG. 3 is a front view of the display screen with transitional graphical user interface after sequentially transitioning from the view of FIG. 2; and,

FIG. 4 is a front view of the display screen with transitional graphical user interface after sequentially transitioning from the view of FIG. 3.

The outer broken lines represent a display screen on which the transitional graphical user interface is shown; other broken lines shown within the transitional graphical user interface represent unclaimed portions of the transitional user interface; the broken lines form no part of the claimed design. The transitional graphical user interface sequentially transitions between the views shown in FIGS. 1 to 4. The process or period in which one view transitions to another view forms no part of the claimed design.
