(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image of a display screen with transitional graphical user interface, where a graphical user interface element is in a closed configuration; FIG. 2 is a front view of a second image thereof; FIG. 3 is a front view of a third image thereof; and, FIG. 4 is a front view of a fourth image thereof. The broken lines showing of the display screen illustrates the environment of the claimed design and forms no part thereof. The broken lines showing of portions of the graphical user interface illustrates portions of the graphical user interface which form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another image forms no part of the claimed design.
