LLP

(57) **CLAIM**

I claim the ornamental designs for a lighting fixture, as shown  
and described.

**DESCRIPTION**

The sole FIGURE is a front perspective view of a lighting  
fixture. This fixture has mirror image symmetry (one hundred  
eighty degree overall rotational symmetry, and mirror image  
symmetry along a first vertical imaginary plane and also  
mirror image symmetry along a second vertical imaginary  
plane, with the first and second vertical imaginary planes  
being orthogonal to each other). The shades each have a  
circular horizontal cross-section.

The broken lines shown in the drawing are for illustrative  
purposes only and form no part of the claimed design.

**1 Claim, 1 Drawing Sheet**
