(57) **CLAIM**

The ornamental design for a flexible medical dressing, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a medical dressing of my new design, comprising absorbent pad disposed below a top covering; the bottom plan view is a mirror image, wherein the absorbent pad is disposed above a bottom covering;

FIG. 2 is a top plan view of a second embodiment of the medical dressing design that includes a variant absorbent pad that is disposed below a top covering; the bottom plan view is a mirror image, wherein the variant absorbent pad is disposed above a bottom covering;

FIG. 3 is a perspective view of the medical dressing design of FIG. 1; apart from the appearance of the absorbent pad, the perspective view of the medical dressing design of FIG. 2 is identical;

FIG. 4 is a front elevation view of the medical dressing designs of FIG. 1 or FIG. 2; the rear elevation view thereof is a mirror image;

FIG. 5 is a right side elevation view of the medical dressing designs of FIG. 1 or FIG. 2; the left side elevation view is a mirror image;

FIG. 6 is a top plan view of the absorbent pad included in the medical dressing design of FIG. 1, here shown without the covering; the bottom plan view is a mirror image.

FIG. 7 is a top plan view of the absorbent pad included in the medical dressing design of FIG. 2, here shown without the covering; the bottom plan view is a mirror image.

FIG. 8 is a top plan view of a third embodiment of the medical dressing design, comprising an absorbent pad disposed below a top covering; the bottom plan view is a mirror image, wherein the absorbent pad is disposed above a bottom covering;

FIG. 9 is a top plan view of the fourth embodiment of my medical dressing design that includes a variant absorbent pad that is disposed below a top covering; the bottom plan view is a mirror image, wherein the variant absorbent pad is disposed above a bottom covering;

FIG. 10 is a perspective view of the medical dressing design of FIG. 8; apart from the appearance of the absorbent pad, the perspective view of the medical dressing design of FIG. 9 is identical;

FIG. 11 is a front elevation view of the medical dressing designs of FIG. 8 or FIG. 9; the rear elevation view thereof is a mirror image;

FIG. 12 is a right side elevation view of the medical dressing designs of FIG. 8 or FIG. 9; the left side elevation view is a mirror image;

FIG. 13 is a top plan view of the absorbent pad included in the medical dressing design of FIG. 8, here shown without the covering; the bottom plan view is a mirror image.

FIG. 14 is a top plan view of the absorbent pad included in the medical dressing design of FIG. 9, here shown without the covering; the bottom plan view is a mirror image.

FIG. 15 is a top plan view of a fifth embodiment of my new medical dressing design, comprising an absorbent pad disposed below a top covering; the bottom plan view is a mirror image, wherein the absorbent pad is disposed above a bottom covering;

FIG. 16 is a top plan view of the sixth embodiment of my medical dressing design that includes a variant absorbent pad that is disposed below a top covering; the bottom plan view is a mirror image, wherein the variant absorbent pad is disposed above a bottom covering;

FIG. 17 is a perspective view of the medical dressing design of FIG. 15; apart from the appearance of the absorbent pad, the perspective view of the medical dressing design of FIG. 16 is identical;

FIG. 18 is a front elevation view of the medical dressing designs of FIG. 15 or FIG. 16; the rear elevation view thereof is a mirror image;

FIG. 19 is a right side elevation view of the medical dressing designs of FIG. 15 or FIG. 16; the left side elevation view is a mirror image;

FIG. 20 is a top plan view of the absorbent pad included in the medical dressing design of FIG. 15, here shown without the covering; the bottom plan view is a mirror image; and,

FIG. 21 is a top plan view of the absorbent pad included in the medical dressing design of FIG. 16, here shown without the covering; the bottom plan view is a mirror image.
