**CLAIM**

We claim the ornamental design for a dimmer switch, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a dimmer switch according to a first embodiment of our new design.

FIG. 2 is a front view thereof.

FIG. 3 is a left side view thereof.

FIG. 4 is a right side view thereof.

FIG. 5 is a top view thereof.

FIG. 6 is a bottom view thereof.

FIG. 7 is a perspective view of a dimmer switch according to a second embodiment of our new design.

FIG. 8 is a front view thereof, the left side, right side, top, and bottom views, respectively, of the second embodiment being identical to the left side, right side, top, and bottom views of the first embodiment.

FIG. 9 is a perspective view of a dimmer switch according to a third embodiment of our new design.

FIG. 10 is a front view thereof, the left side, right side, top, and bottom views, respectively, of the third embodiment being identical to the left side, right side, top, and bottom views of the first embodiment.

FIG. 11 is a perspective view of a dimmer switch according to a fourth embodiment of our new design.

FIG. 12 is a front view thereof, the left side, right side, top, and bottom views, respectively, of the fourth embodiment being identical to the left side, right side, top, and bottom views of the first embodiment.

FIG. 13 is a perspective view of a dimmer switch according to a fifth embodiment of our new design.

FIG. 14 is a front view thereof.

FIG. 15 is a top view thereof; and,

FIG. 16 is a bottom view thereof, the left side and right side views, respectively, of the fifth embodiment being identical to the left side and right side views of the first embodiment.

The rear views form no part of the design and are omitted. The portions of the drawings appearing in broken line are for environment only and do not form a part of the claimed design.
