(57) **CLAIM**

I claim the ornamental design for a portable electronic device displaying graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front-side view of a first image of a portable electronic device displaying graphical user interface showing our new design;

FIG. 2 is a front-side view of a second image of a portable electronic device displaying graphical user interface showing our new design;

FIG. 3 is a front-side view of a third image of a portable electronic device displaying graphical user interface showing our new design;

FIG. 4 is a front-side view of a fourth image of a portable electronic device displaying graphical user interface showing our new design;

FIG. 5 is a front-side view of a fifth image of a portable electronic device displaying graphical user interface showing our new design;

FIG. 6 is a front-side view of a sixth image of a portable electronic device displaying graphical user interface showing our new design;

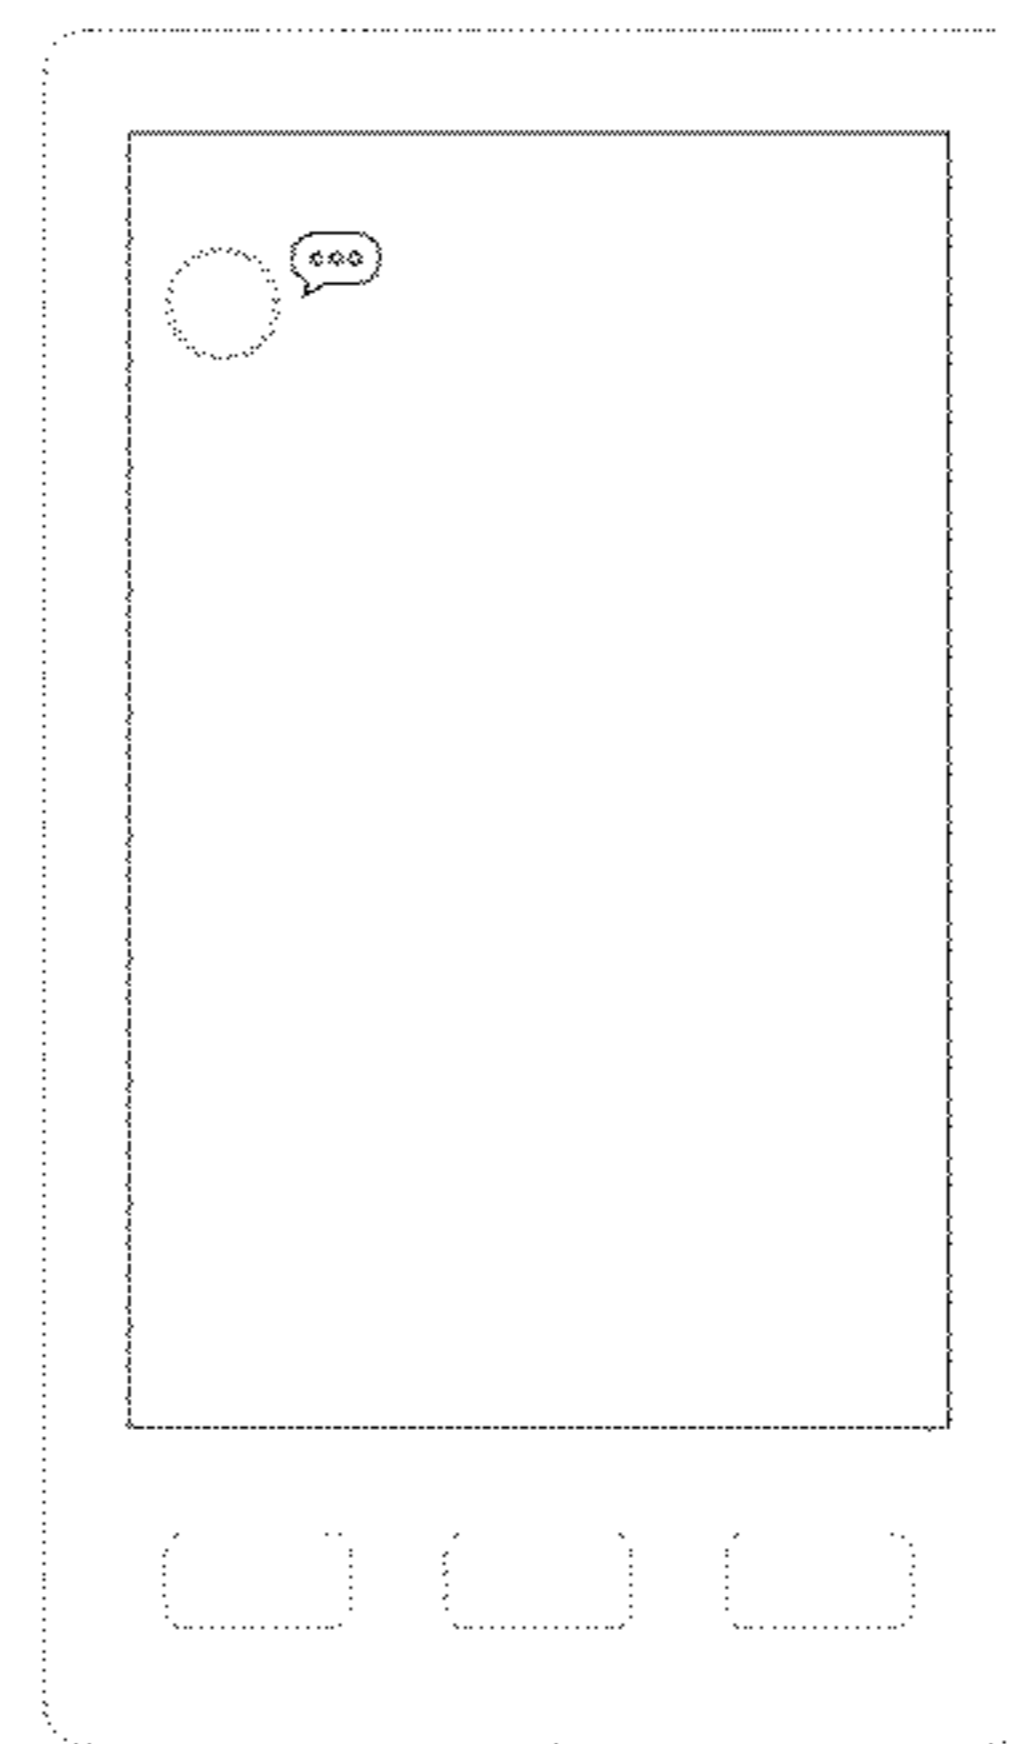

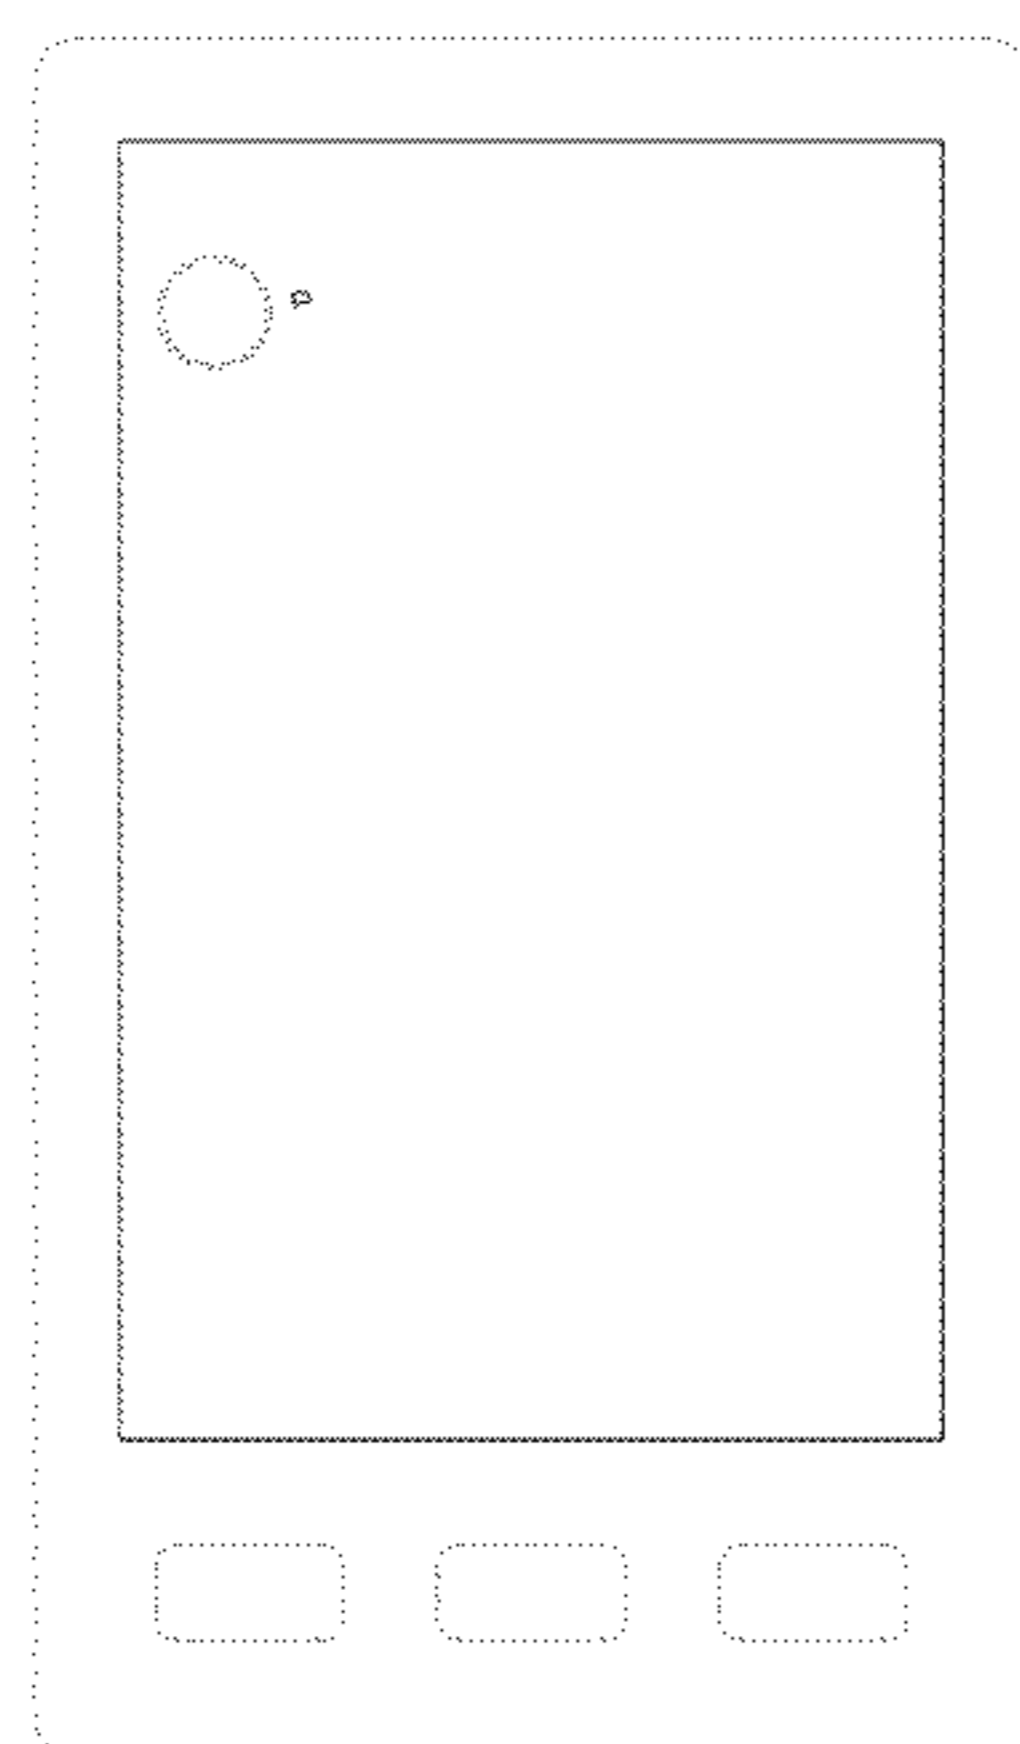

FIG. 7 is a front-side view of a seventh image of a portable electronic device displaying graphical user interface showing our new design; and,

FIG. 8 is a front-side view of an eighth image of a portable electronic device displaying graphical user interface showing our new design.

The appearance of the transitional user interface sequentially transitions between the images shown in FIG. 1-8. The process of period in which one image transitions to another forms no part of the claimed design.

The broken line showing of the mobile terminal, and the on-screen symbols, is included for the purpose of illustrating environmental structure and portions of the article, respectively, and forms no part of the claimed design.
