(57) **CLAIM**

The ornamental design for a plastic bag with textured strip, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation of a plastic bag of the present invention;

FIG. 2 is a rear elevation;
FIG. 3 is a bottom plan;
FIG. 4 is a top plan;
FIG. 5 is a right side elevation;
FIG. 6 is a left side elevation;
FIG. 7 is a front elevation of a second embodiment of the invention, the plastic bag having one textured strip extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof;
FIG. 8 is a front elevation of a third embodiment of the invention, the plastic bag having one textured strip extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof;
FIG. 9 is a front elevation of a fourth embodiment of the invention, the plastic bag having one textured strip extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof;
FIG. 10 is a front elevation of a fifth embodiment of the invention, the plastic bag having one textured strip extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof;
FIG. 11 is a front elevation of a sixth embodiment of the invention, the plastic bag having one textured strip extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof;
FIG. 12 is a front elevation of a seventh embodiment of the invention, the plastic bag having one textured strip extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof;
FIG. 13 is a front elevation of an eighth embodiment of the invention, the plastic bag having one textured strip extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof; and,
FIG. 14 is a front elevation of a ninth embodiment of the invention, the plastic bag having one textured strip extending between the opening of the bag and the bottom of the bag, the rear elevation being a mirror image thereof.
The shading in FIGS. 1-14 depicts a texture contrast consonant with the visual appearance shown in these drawings. The top, bottom, left, and right views of the alternative embodiments in FIGS. 7-14 are as shown in FIGS. 3-6, except that the plastic bag has the specific number of strips shown in the embodiments of FIGS. 7-14, respectively.
The broken lines define the bounds of the claimed design and form no part thereof.

1 Claim, 13 Drawing Sheets
