(57) **CLAIM**

We claim the ornamental design for an identification sleeve and flexible hose, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of an embodiment of our design for an identification sleeve and flexible hose;

FIG. 2 is a right side view of the design for an identification sleeve and flexible hose shown in FIG. 1, the left side view being identical;
 FIG. 3 is a top view of the design for an identification sleeve and flexible hose shown in FIG. 1, the bottom view being identical;
 FIG. 4 is an end view of the design for an identification sleeve and flexible hose shown in FIG. 1, the opposite end view being identical;
 FIG. 5 is an isometric view of an embodiment of our design for an identification sleeve and flexible hose;
 FIG. 6 is a right side view of the design for an identification sleeve and flexible hose shown in FIG. 5, the left side view being identical;
 FIG. 7 is a top view of the design for an identification sleeve and flexible hose shown in FIG. 5, the bottom view being identical;
 FIG. 8 is an end view of the design for an identification sleeve and flexible hose shown in FIG. 5, the opposite end view being identical;
 FIG. 9 is an isometric view of an embodiment of our design for an identification sleeve and flexible hose;
 FIG. 10 is a right side view of the design for an identification sleeve and flexible hose shown in FIG. 9, the left side view being identical;
 FIG. 11 is a top view of the design for an identification sleeve and flexible hose shown in FIG. 9, the bottom view being identical;
 FIG. 12 is an end view of the design for an identification sleeve and flexible hose shown in FIG. 9, the opposite end view being identical;
 FIG. 13 is an isometric view of an embodiment of our design for an identification sleeve and flexible hose;
 FIG. 14 is a right side view of the design for an identification sleeve and flexible hose shown in FIG. 13, the left side view being identical;
 FIG. 15 is a top view of the design for an identification sleeve and flexible hose shown in FIG. 13, the bottom view being identical; and,
 FIG. 16 is an end view of the design for an identification sleeve and flexible hose shown in FIG. 13, the opposite end view being identical.
 Drawings 1-3 and 9-11 are lined for color, the color being orange.
 Drawings 5-7 and 13-15 are lined to show contrasting colors. The hose is shown with a symbolic break in its length. The appearance of any portion of the hose between the break lines forms no part of the claimed design.

1 Claim, 12 Drawing Sheets
