(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a display screen with transitional graphical user interface;
FIG. 2 is a front view of a second image thereof;
FIG. 3 is a front view of a first image of a second embodiment of the display screen with transitional graphical user interface; and,
FIG. 4 is a front view of a second image thereof.
The appearance of the first embodiment of the transitional graphical user interface changes sequentially between the images shown in FIGS. 1-2, and the appearance of the second embodiment of the transitional graphical user interface changes sequentially between the images shown in FIGS. 3-4. No ornamental aspects are associated with the process or period in which one image transitions to another.
The outer broken line rectangle depicts a display screen on which the transitional graphical user interface is presented, whereas other broken lines depict environment. The broken lines form no part of the claimed design.
