(57) **CLAIM**

The ornamental design for a cylindrical tablet having separable interlocking components, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a cylindrical tablet having separable interlocking components, according to my new design.

FIG. 2 is a front view of my cylindrical tablet having separable interlocking components.

FIG. 3 is a back view of my cylindrical tablet having separable interlocking components.

FIG. 4 is a right side view of my cylindrical tablet having separable interlocking components.

FIG. 5 is a left side view of my cylindrical tablet having separable interlocking components.

FIG. 6 is a top view of my cylindrical tablet having separable interlocking components.

FIG. 7 is a bottom view of my cylindrical tablet having separable interlocking components.

FIG. 8 is a separated perspective view of my cylindrical tablet having separable interlocking components.

FIG. 9 is another separated perspective view of my cylindrical tablet having separable interlocking components.

FIG. 10 is a separated right side view of my cylindrical tablet having separable interlocking components.

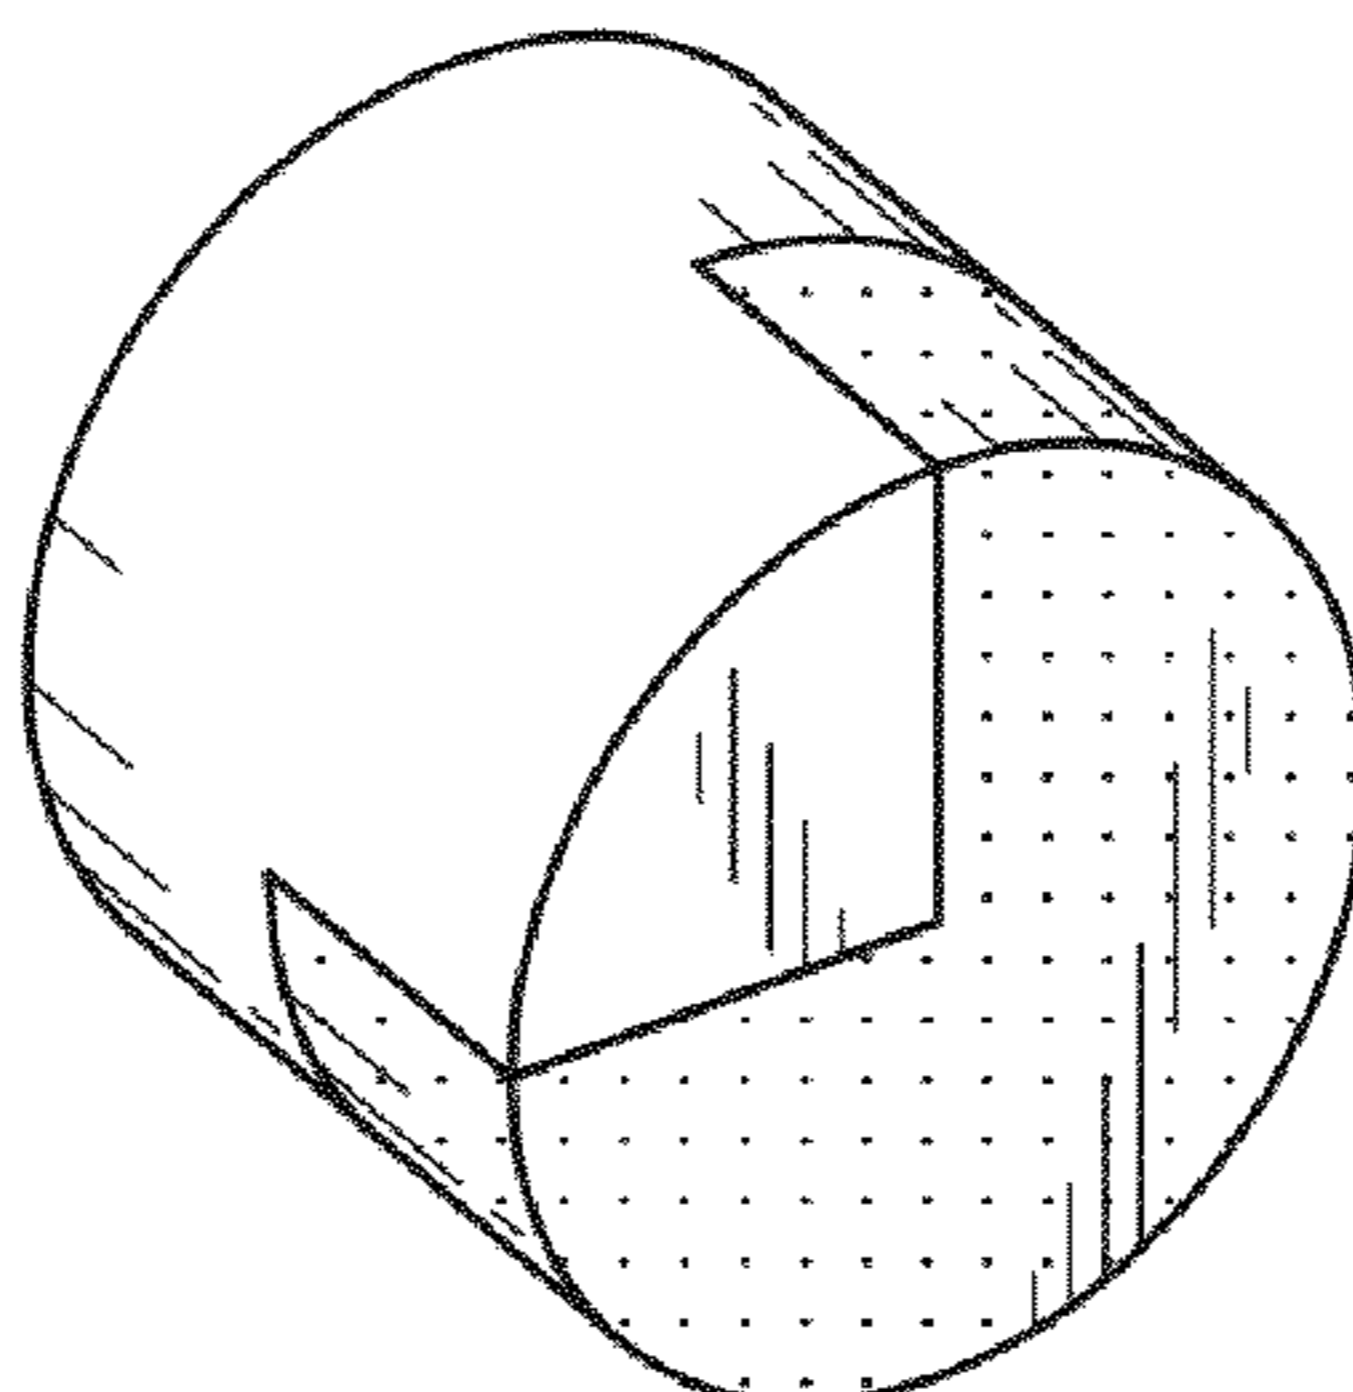

FIG. 11 is a separated left side view of my cylindrical tablet having separable interlocking components.

FIG. 12 is a separated top view of my cylindrical tablet having separable interlocking components.

FIG. 13 is a separated bottom view of my cylindrical tablet having separable interlocking components; and,

FIG. 14 is a perspective view of my cylindrical tablet having separable interlocking components in a stacked arrangement. The broken lines shown in FIG. 14 are included to illustrate environment and do not form part of the claimed design. The dot shading is provided to distinguishing between the two interlocking components.

1 Claim, 3 Drawing Sheets
