(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

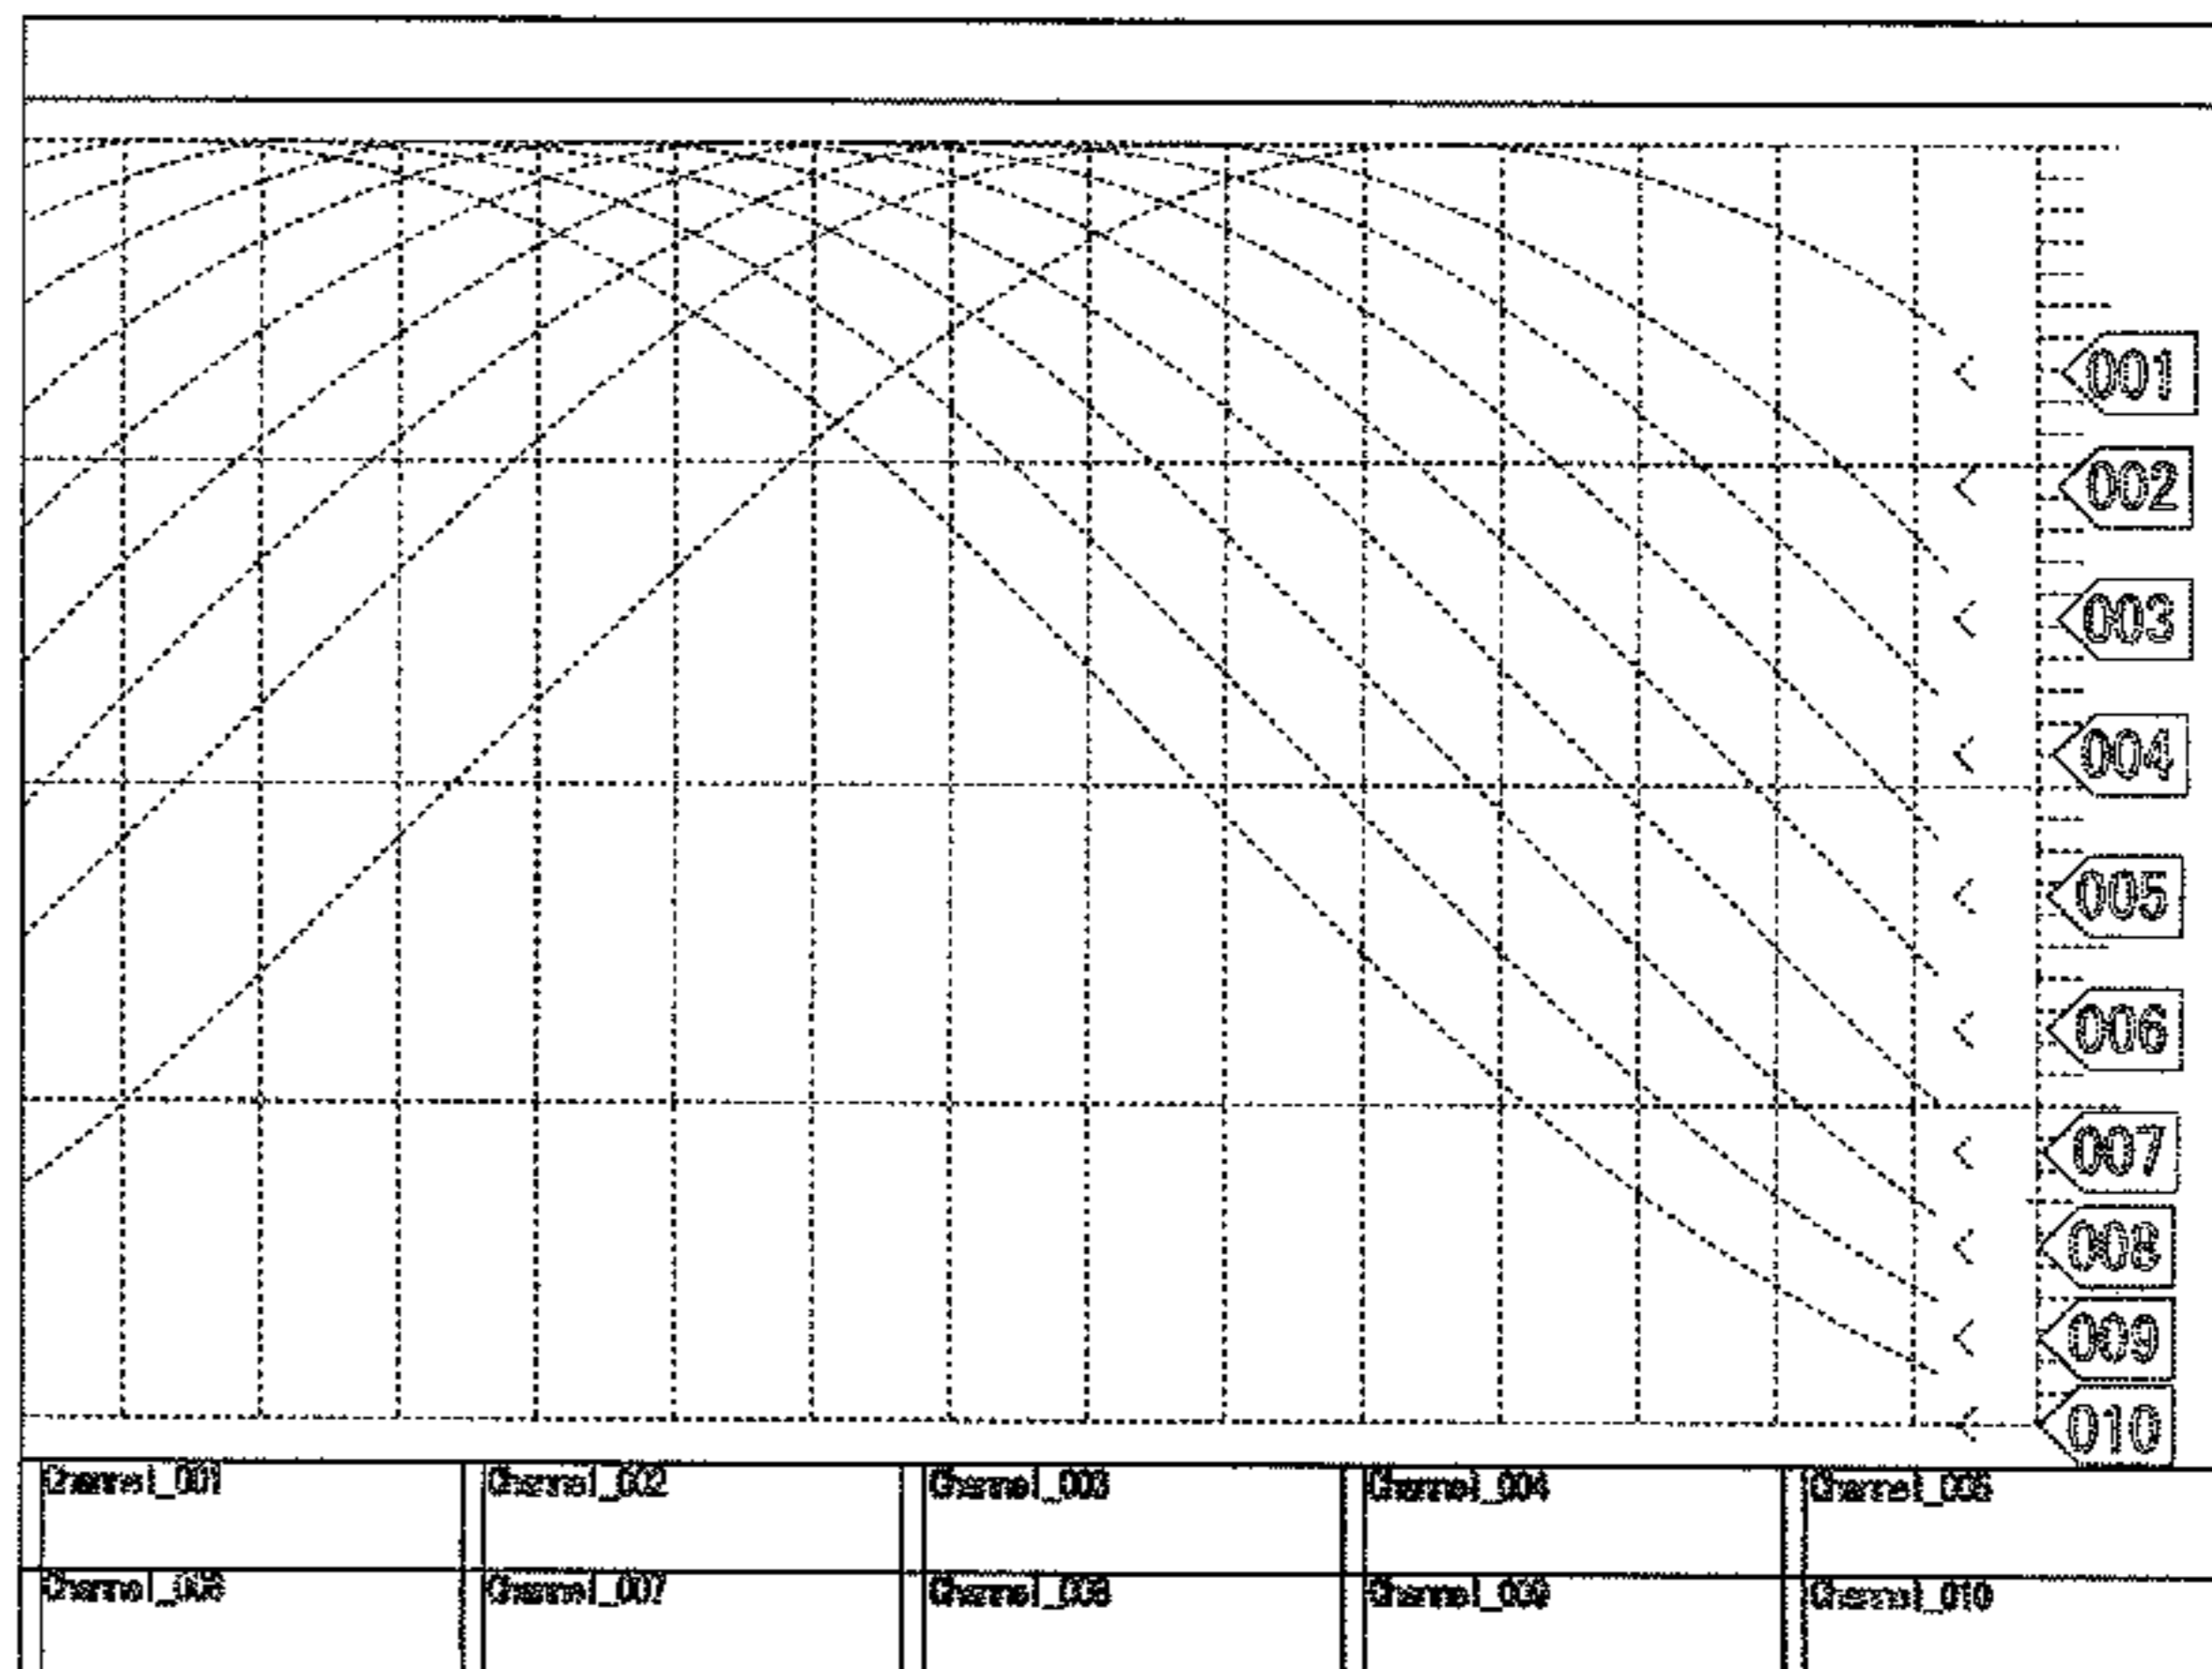

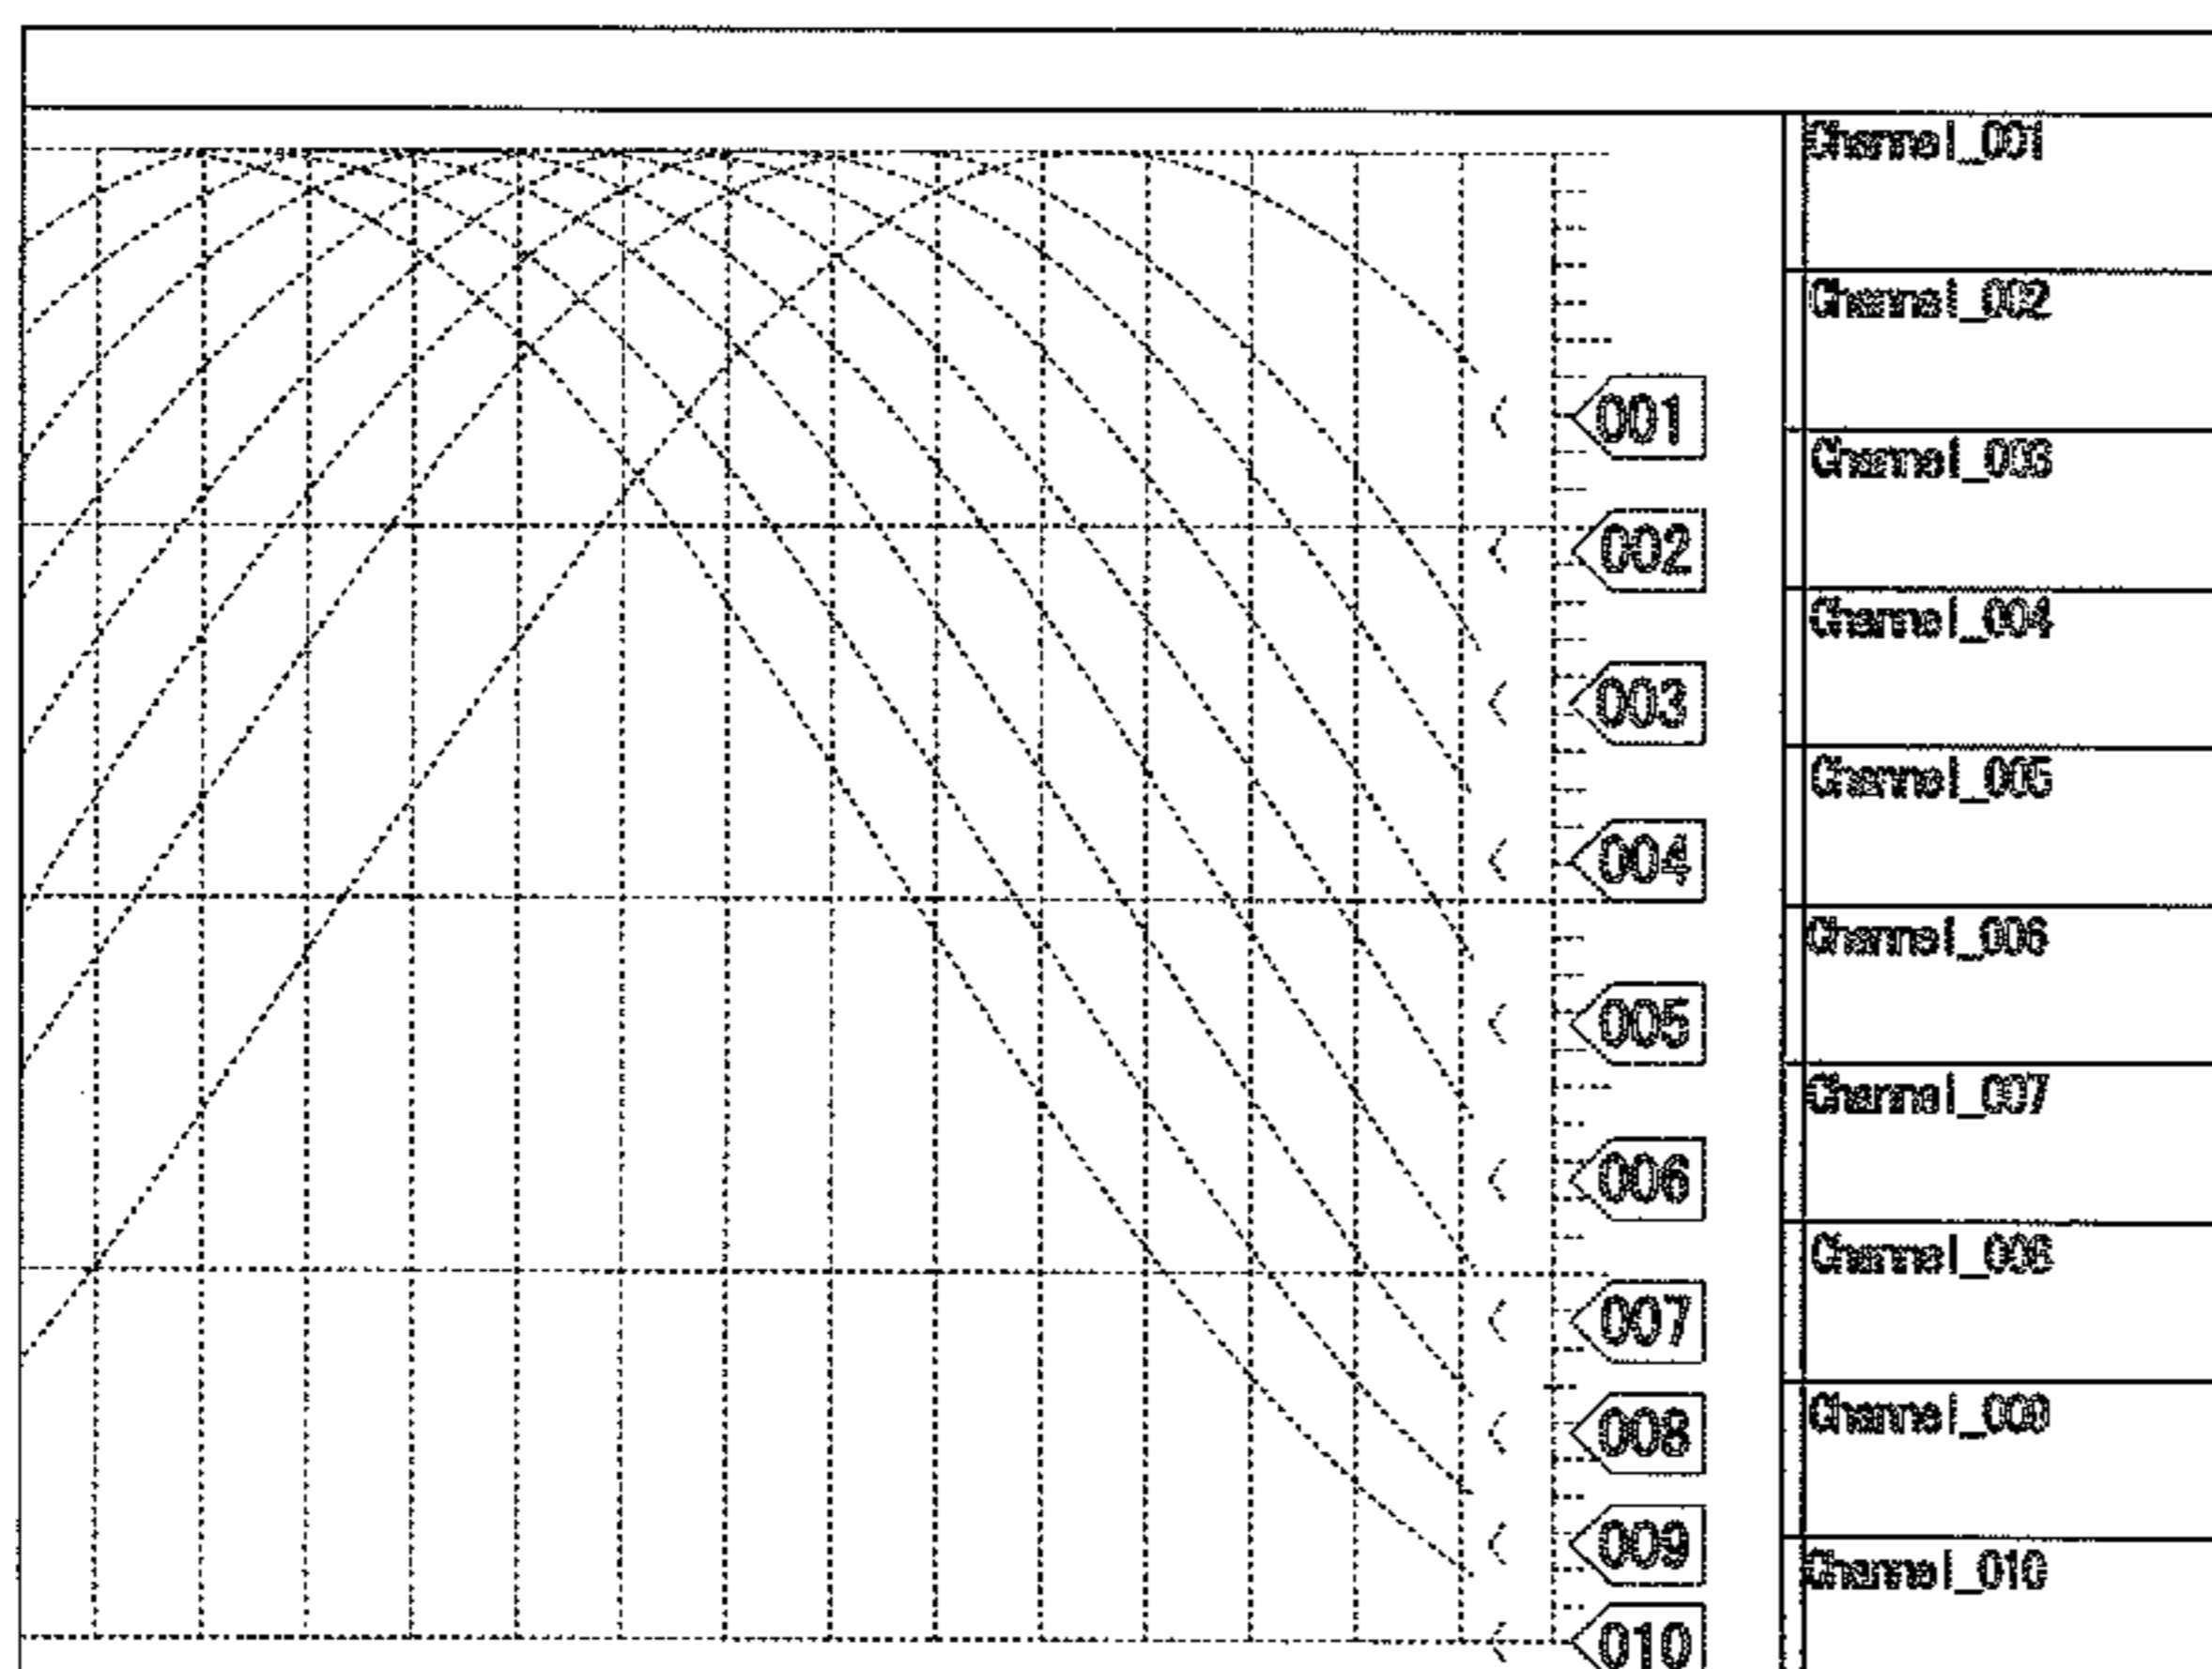

FIG. 1 is the first image in a sequence for a display screen with graphical user interface according to our new design; FIG. 2 is the second image thereof; FIG. 3 is the third image thereof; and, FIG. 4 is the fourth image thereof.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.

The broken line showings of the numbers, text, and portions of the graphical user interface are included for the purpose of illustrating portions of the display screen with graphical user interface and form no part of the claimed design.

The portion of the display screen is understood to be flush with the perimeter of the graphical user interface.
