(57) **CLAIM**

The ornamental design for a decorative article that transforms between heart and oval configurations, as shown and described.

**DESCRIPTION**

FIG. 1 is a side perspective view of the invention in a heart configuration;  
FIG. 2 is a front elevational view or a back elevational view of the invention in the heart configuration;  
FIG. 3 is a side elevational view of the invention in the heart configuration;  
FIG. 4 is a top elevational view of the invention in the heart configuration;  
FIG. 5 is a bottom elevational view of the invention in the heart configuration;  
FIG. 6 is a side perspective view of the invention mid-transformation between the heart configuration and an oval configuration, according to a transformation rotation;  
FIG. 7 is a side perspective view of the invention in the oval configuration; and,  
FIG. 8 is a front elevational view of the invention in the oval configuration.
