(57) **CLAIM**

We claim the ornamental design for a display screen or portion thereof with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display screen or portion thereof with transitional graphical user interface, showing our new design;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a third image thereof;

FIG. 4 is a front view of a fourth image thereof;

FIG. 5 is a front view of a fifth image thereof;

FIG. 6 is a front view of the display screen or portion thereof with transitional graphical user interface of FIG. 1 in which a device is provided in broken lines to illustrate an example environment;

FIG. 7 is a front view of a second image thereof;

FIG. 8 is a front view of a third image thereof;

FIG. 9 is a front view of a fourth image thereof; and,

FIG. 10 is a front view of a fifth image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 through 5 and between the images shown in FIGS. 6 through 10. The subject matter of this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.

The broken line showing of the device, and the symbol and other images is included for the purpose of illustrating environmental structure and portions of the article, respectively, and forms no part of the claimed design.

1 Claim, 10 Drawing Sheets
