See application file for complete search history.

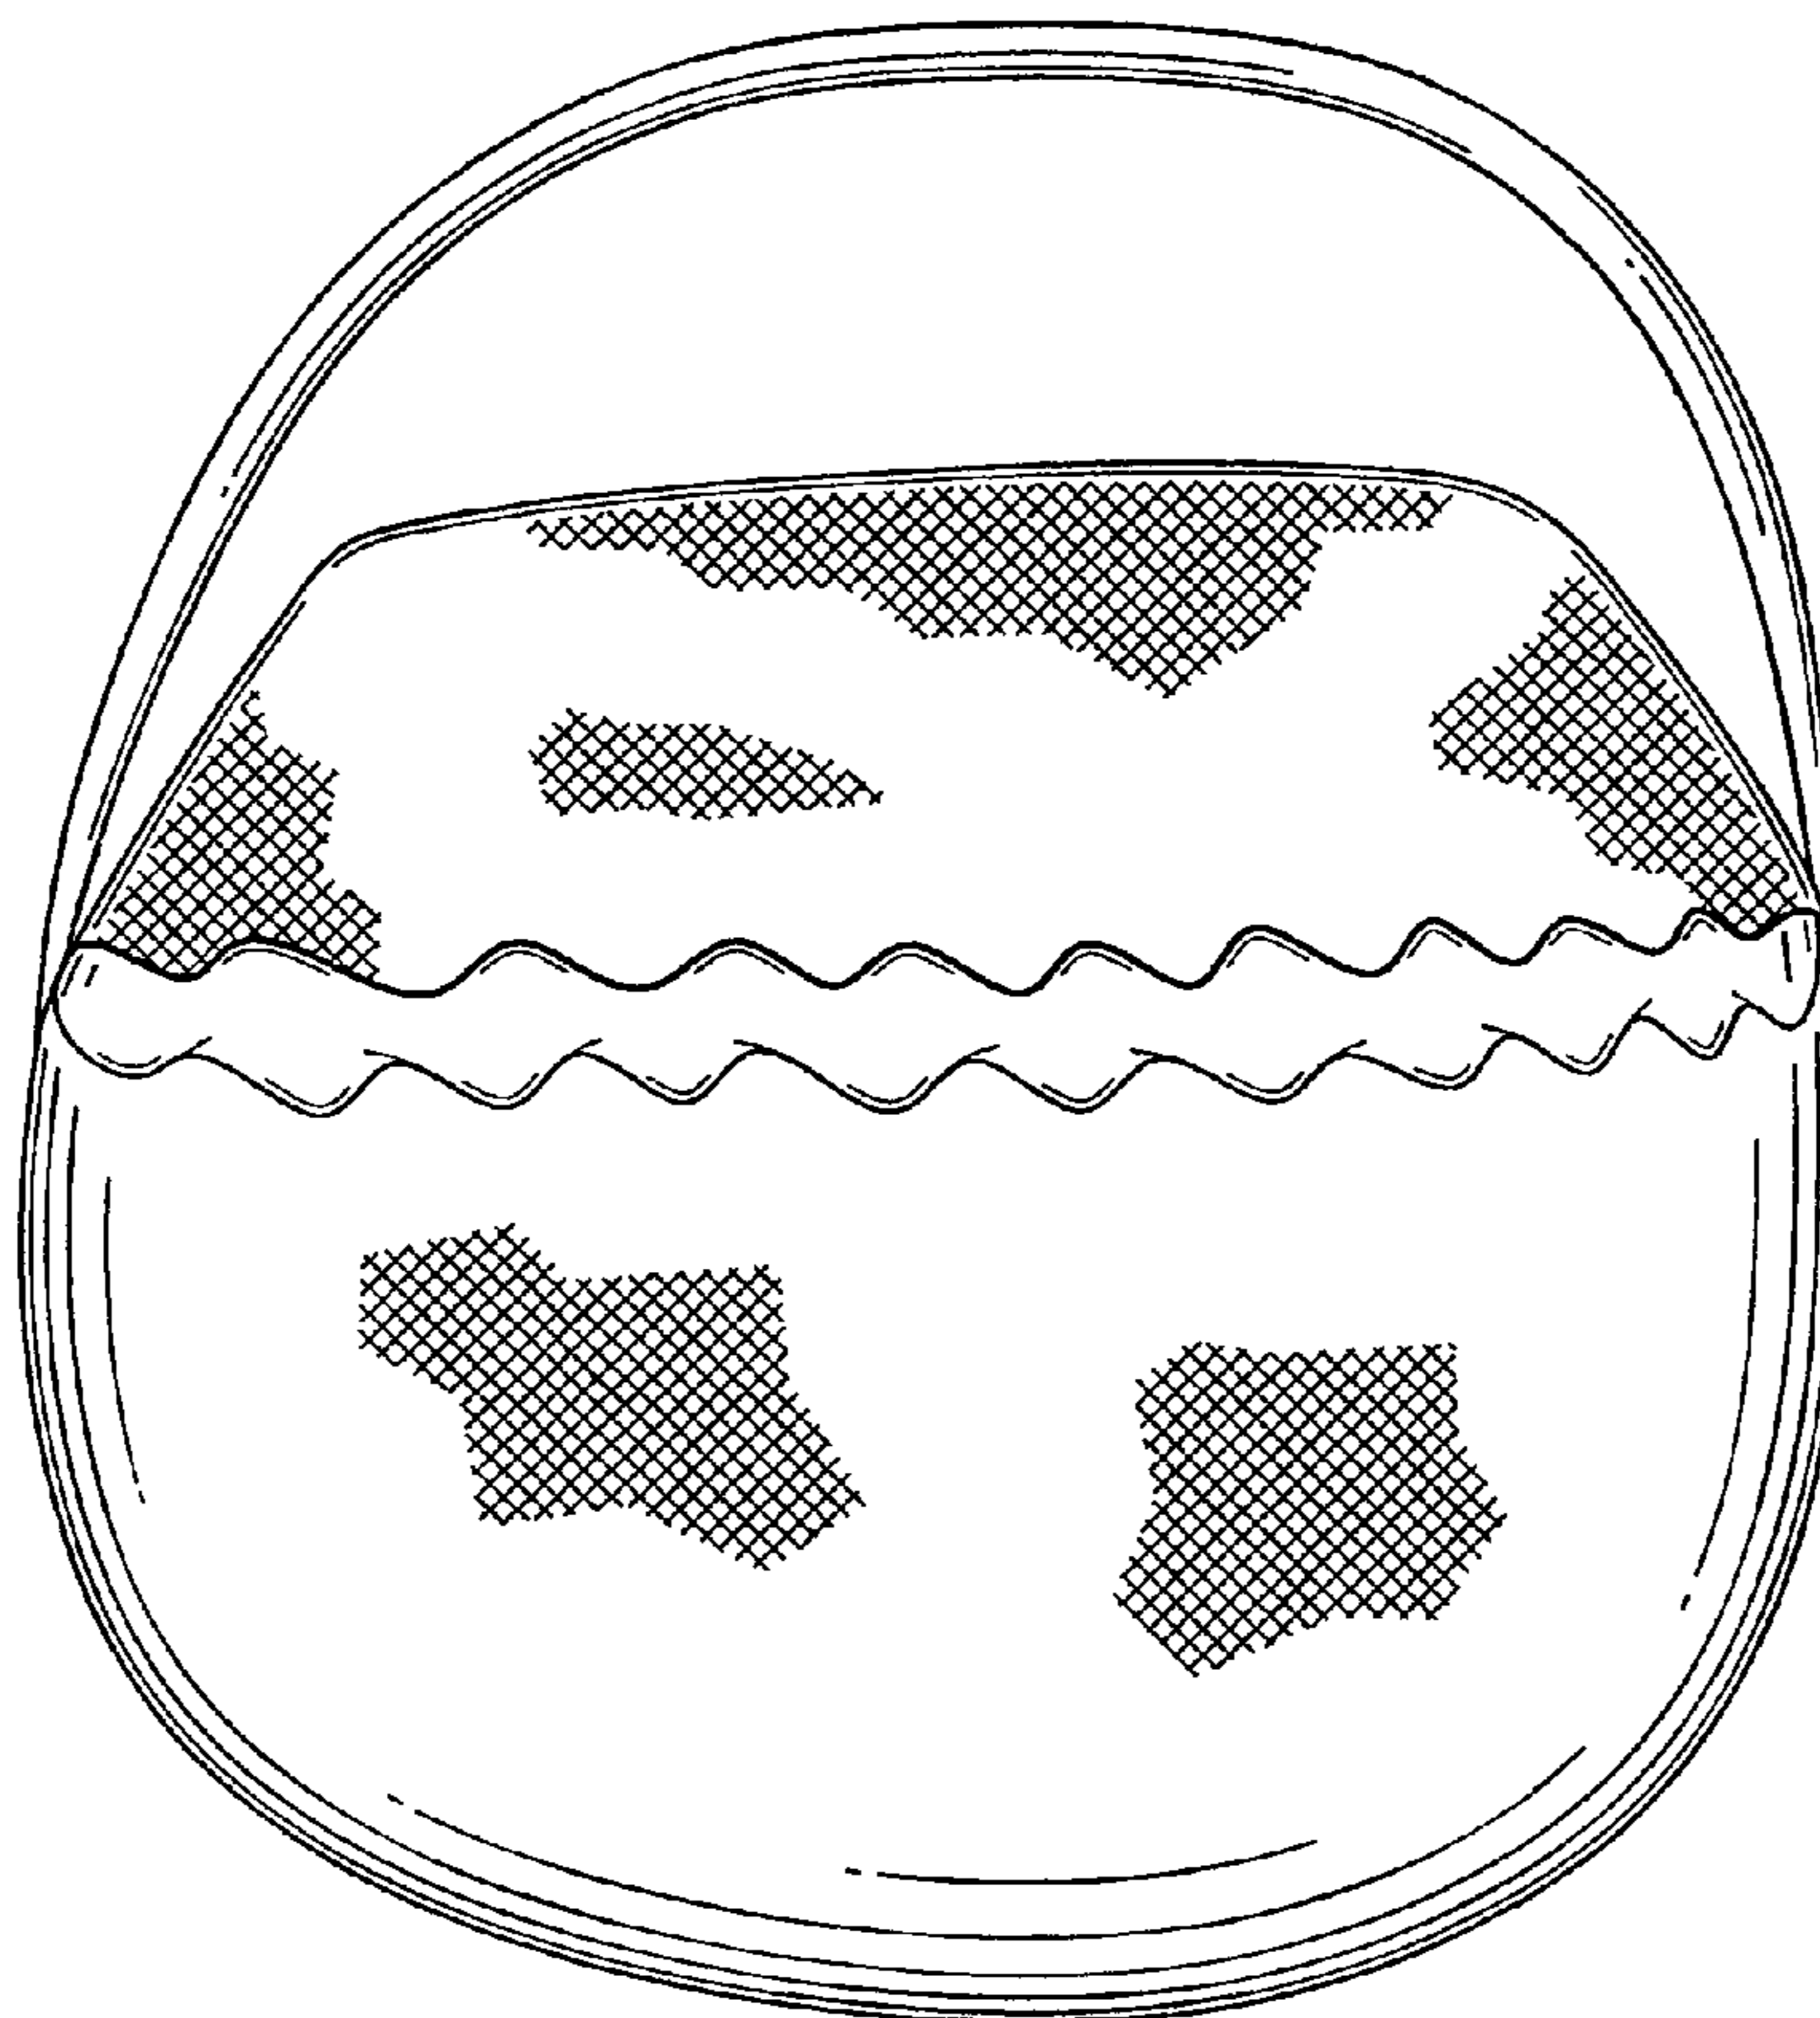

Expandable purse covers are made to fit over an existing  
purse, without any change to the purse itself. The covers have  
expandable material, which accommodates various size  
purses. It has detachable straps that can be used as needed to  
change the look of the purse. There is a secured top opening,  
which allows easy access to the contents of the purse. Users  
do not have to purchase an additional purse in order to change  
the look with different covers. They will also not have to  
worry about a removable inner lining not fitting properly into  
their existing purse. This provides a quick, convenient, fash-  
ionable look.
