(57) **CLAIM**

The ornamental design for an electronic device case with a cut-out having asymmetric corners, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an electronic device case with a cut-out having asymmetric corners according to the claimed design.

FIG. 2 is a first end view of the electronic device case with a cut-out having asymmetric corners of FIG. 1.

FIG. 3 is a second end view of the electronic device case with a cut-out having asymmetric corners of FIG. 1.

FIG. 4 is a first side view of the electronic device case with a cut-out having asymmetric corners of FIG. 1.

FIG. 5 is a second side view of the electronic device case with a cut-out having asymmetric corners of FIG. 1.

FIG. 6 is a back view of the electronic device case with a cut-out having asymmetric corners of FIG. 1; and,

FIG. 7 is a front view of the electronic device case with a cut-out having asymmetric corners of FIG. 1.

The claimed design comprises only four corner segments of the edge defined by the intersection of the rear panel interior surface with the beveled surface of the aperture of the case. No surfaces are claimed. The broken lines depict unclaimed portions of the electronic device case.
