(57) **CLAIM**

The ornamental design for a control board device with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a first embodiment of a control board device with graphical user interface according to a first state;

FIG. 2 is an enlarged front elevational view thereof, shown separated from the environment of use; and,

FIG. 3 is an enlarged front elevational view thereof, shown separated from the environment of use and with the pop-up window within the graphical user interface portion of the control board device with graphical user interface illustrated in FIGS. 1 and 2 in a closed position.

The transitional process or period between the first state and the second state or vice versa form no part of the claimed design. Further, the broken lines in the drawings depict environmental subject matter only, in the form of a display screen or portion thereof of a control board device, and form no part of the claimed design.
