(57) **CLAIM**

The ornamental design for a mobile communication device display screen with graphical user interface comprising notification icon with contextual information and privacy icons, as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the U.S. Patent and Trademark Office patent file or records, but reserves all other copyright rights whatsoever.

The FIGURE is a front view of a mobile communication device display screen with graphical user interface comprising notification icon with contextual information and privacy icons showing my new design.

The broken line showing of the remainder of the graphical user interface and display screen forms no part of the claimed design.

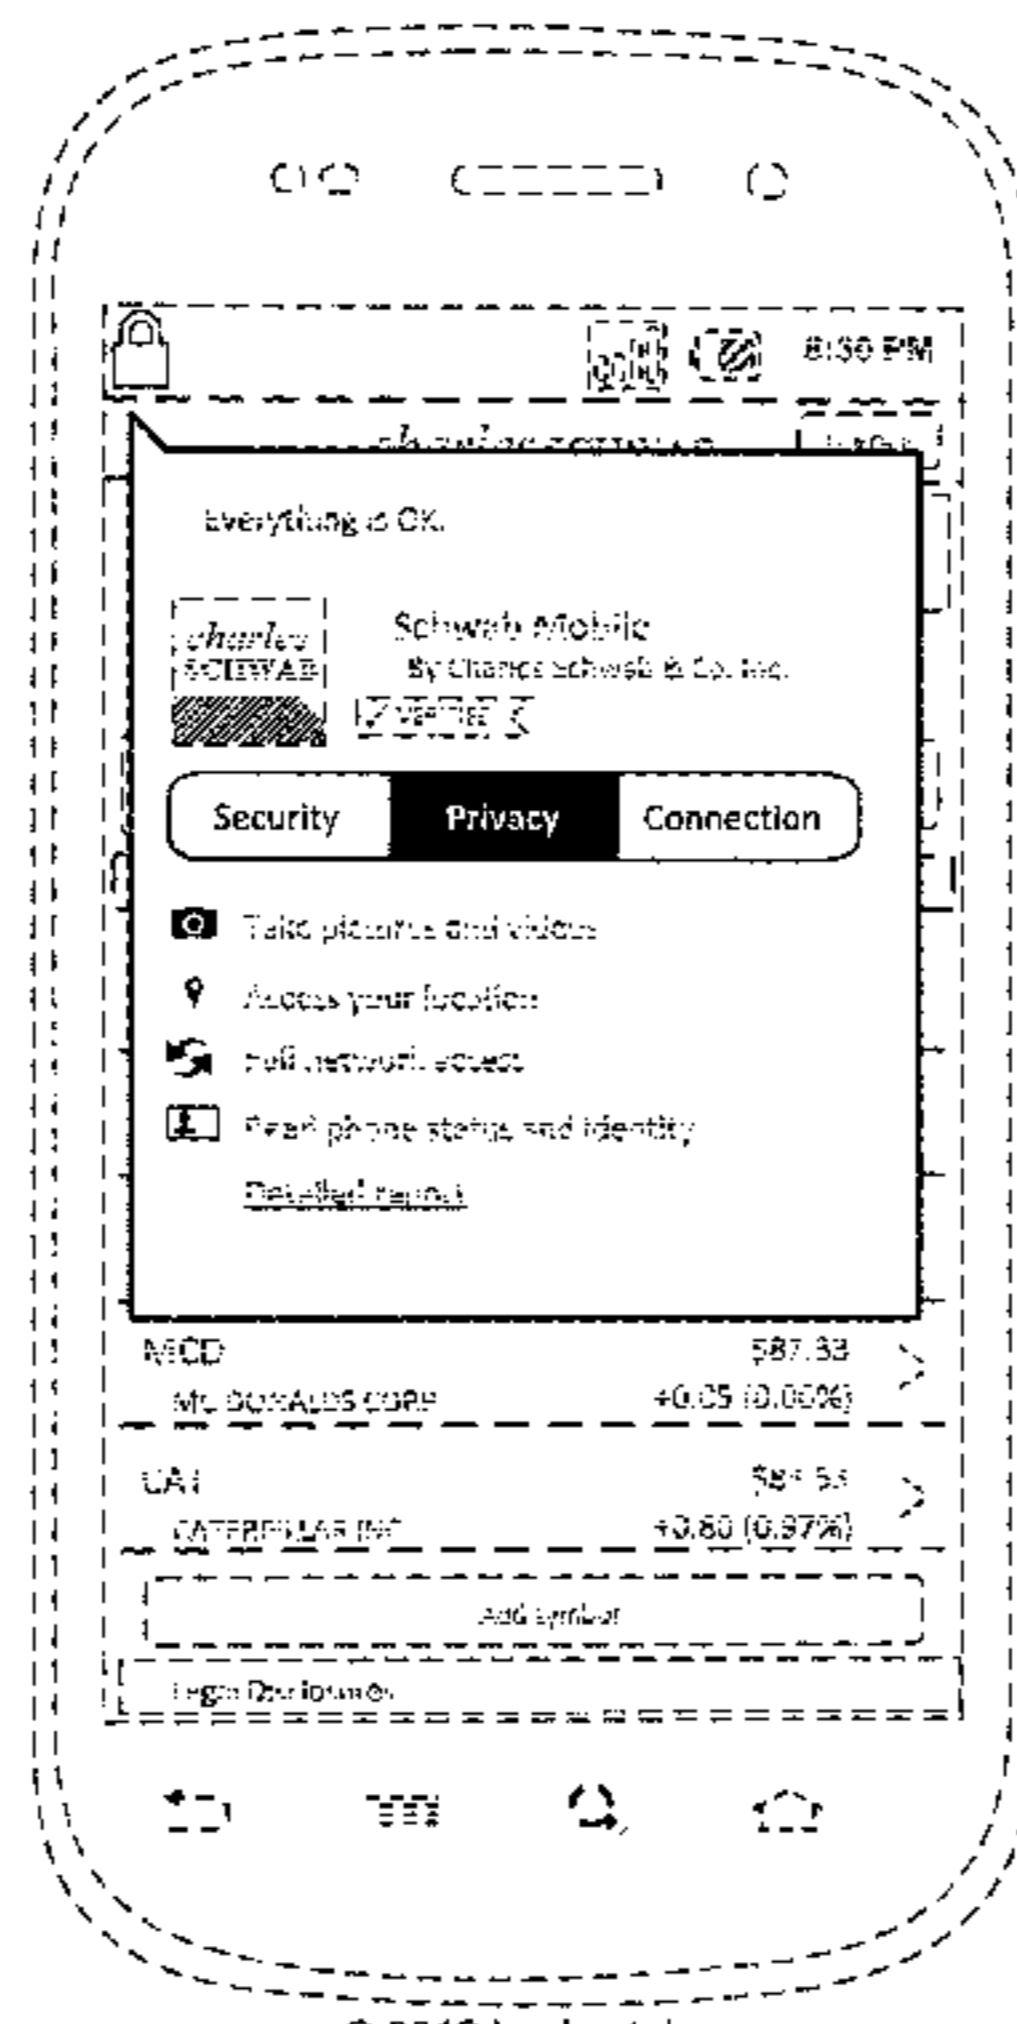

“Charles Schwab” and “Schwab Mobile” are registered trademarks of Charles Schwab & Co., Inc., but do not form part of the claimed design.
