(57) **CLAIM**

The ornamental design for a wearable medical supply pouch, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a wearable medical supply pouch showing a caddy portion and a strap portion, wherein the broken lines represent clasps as part of the environment and form no part of the claimed design;

FIG. 2 is another perspective view of FIG. 1, wherein the broken lines represent clasps as part of the environment and interior portions of the pocket as part of the bounds and form no part of the claimed design;

FIG. 3 is perspective view of the caddy portion;

FIG. 4 is a another perspective view of the caddy portion, wherein the broken lines represent interior portions of the pocket as part of the bounds and form no part of the claimed design;

FIG. 5 another perspective view of the caddy portion, wherein the broken lines represent fasteners as part of the environment and form no part of the claimed design;

FIG. 6 is another perspective view of the caddy portion, wherein the broken lines represent interior portions of the pocket as part of the bounds and fasteners as part of the environment and form no part of the claimed design;

FIG. 7 is front view of the caddy portion;

FIG. 8 is a rear view of the caddy portion, wherein the broken lines represent interior portions of the pocket as part of the bounds and fasteners as part of the environment and form no part of the claimed design;

FIG. 9 is a left-hand side view of the caddy portion, wherein the broken lines represent fasteners as part of the environment and form no part of the claimed design;

FIG. 10 is a right-hand side view of the caddy portion, wherein the broken lines represent fasteners as part of the environment and form no part of the claimed design;

FIG. 11 is a top view of the caddy portion, wherein the broken lines represent fasteners as part of the environment and form no part of the claimed design;

FIG. 12 is a bottom view of the caddy portion, wherein the broken lines represent a pocket fastener as part of the environment and forms no part of the claimed design;

FIG. 13 is a perspective view of the strap portion, wherein the broken lines represent clasps as part of the environment and form no part of the claimed design;

FIG. 14 is another perspective view of the strap portion, wherein the broken lines represent clasps as part of the environment and form no part of the claimed design;

FIG. 15 is a front view of the strap portion;

FIG. 16 is a rear view of the trap portion;

FIG. 17 is a left-hand side view of the strap portion, wherein a right-hand side view is a mirror image of the right-hand side view;

FIG. 18 is a top view of the strap portion; and,

FIG. 19 is a bottom view of the trap portion.

Figures having broken lines represent the bounds and environment of the article and form no part of the claimed design. The belt is not shown completely in FIGS. 7-8 and 12 for convenience of illustration.

1 Claim, 17 Drawing Sheets
