(57) **CLAIM**

The ornamental design for a LED-module with reflector, as shown and described.

**DESCRIPTION**

The patent or application file contains at least one photograph executed in color. Copies of this patent or patent application publication with color photographs will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a color photograph of a perspective view of our new LED-module with reflector design;

FIG. 2 is a color photograph of a right perspective view thereof;

FIG. 3 is a color photograph of a left perspective view thereof;

FIG. 4 is a color photograph of a front perspective view thereof;

FIG. 5 is a color photograph of a rear perspective view thereof;

FIG. 6 is a color photograph of a top perspective view thereof; and,

FIG. 7 is a color photograph of a bottom perspective view thereof.

Applicants submit the invention is not capable of being illustrated in an ink drawing and that the invention is shown in most clarity in the color photographs submitted herewith. The color shown on the claimed design forms no part thereof.
