DESCRIPTION

FIG. 1 is a top perspective view of the electronic card reader device with displaying means and fingerprint scanner.

FIG. 2 is a bottom perspective view of the electronic card reader device with displaying means and fingerprint scanner.

FIG. 3 is a top plan view of the electronic card reader device with displaying means and fingerprint scanner.

FIG. 4 is a bottom plan view of the electronic card reader device with displaying means and fingerprint scanner.

FIG. 5 is a right side view of the electronic card reader device with displaying means and fingerprint scanner.

FIG. 6 is a left side view of the electronic card reader device with displaying means and fingerprint scanner.

FIG. 7 is a bottom perspective view of the electronic card reader device with displaying means and fingerprint scanner; and,

FIG. 8 is a top perspective view of the electronic card reader device with displaying means and fingerprint scanner.

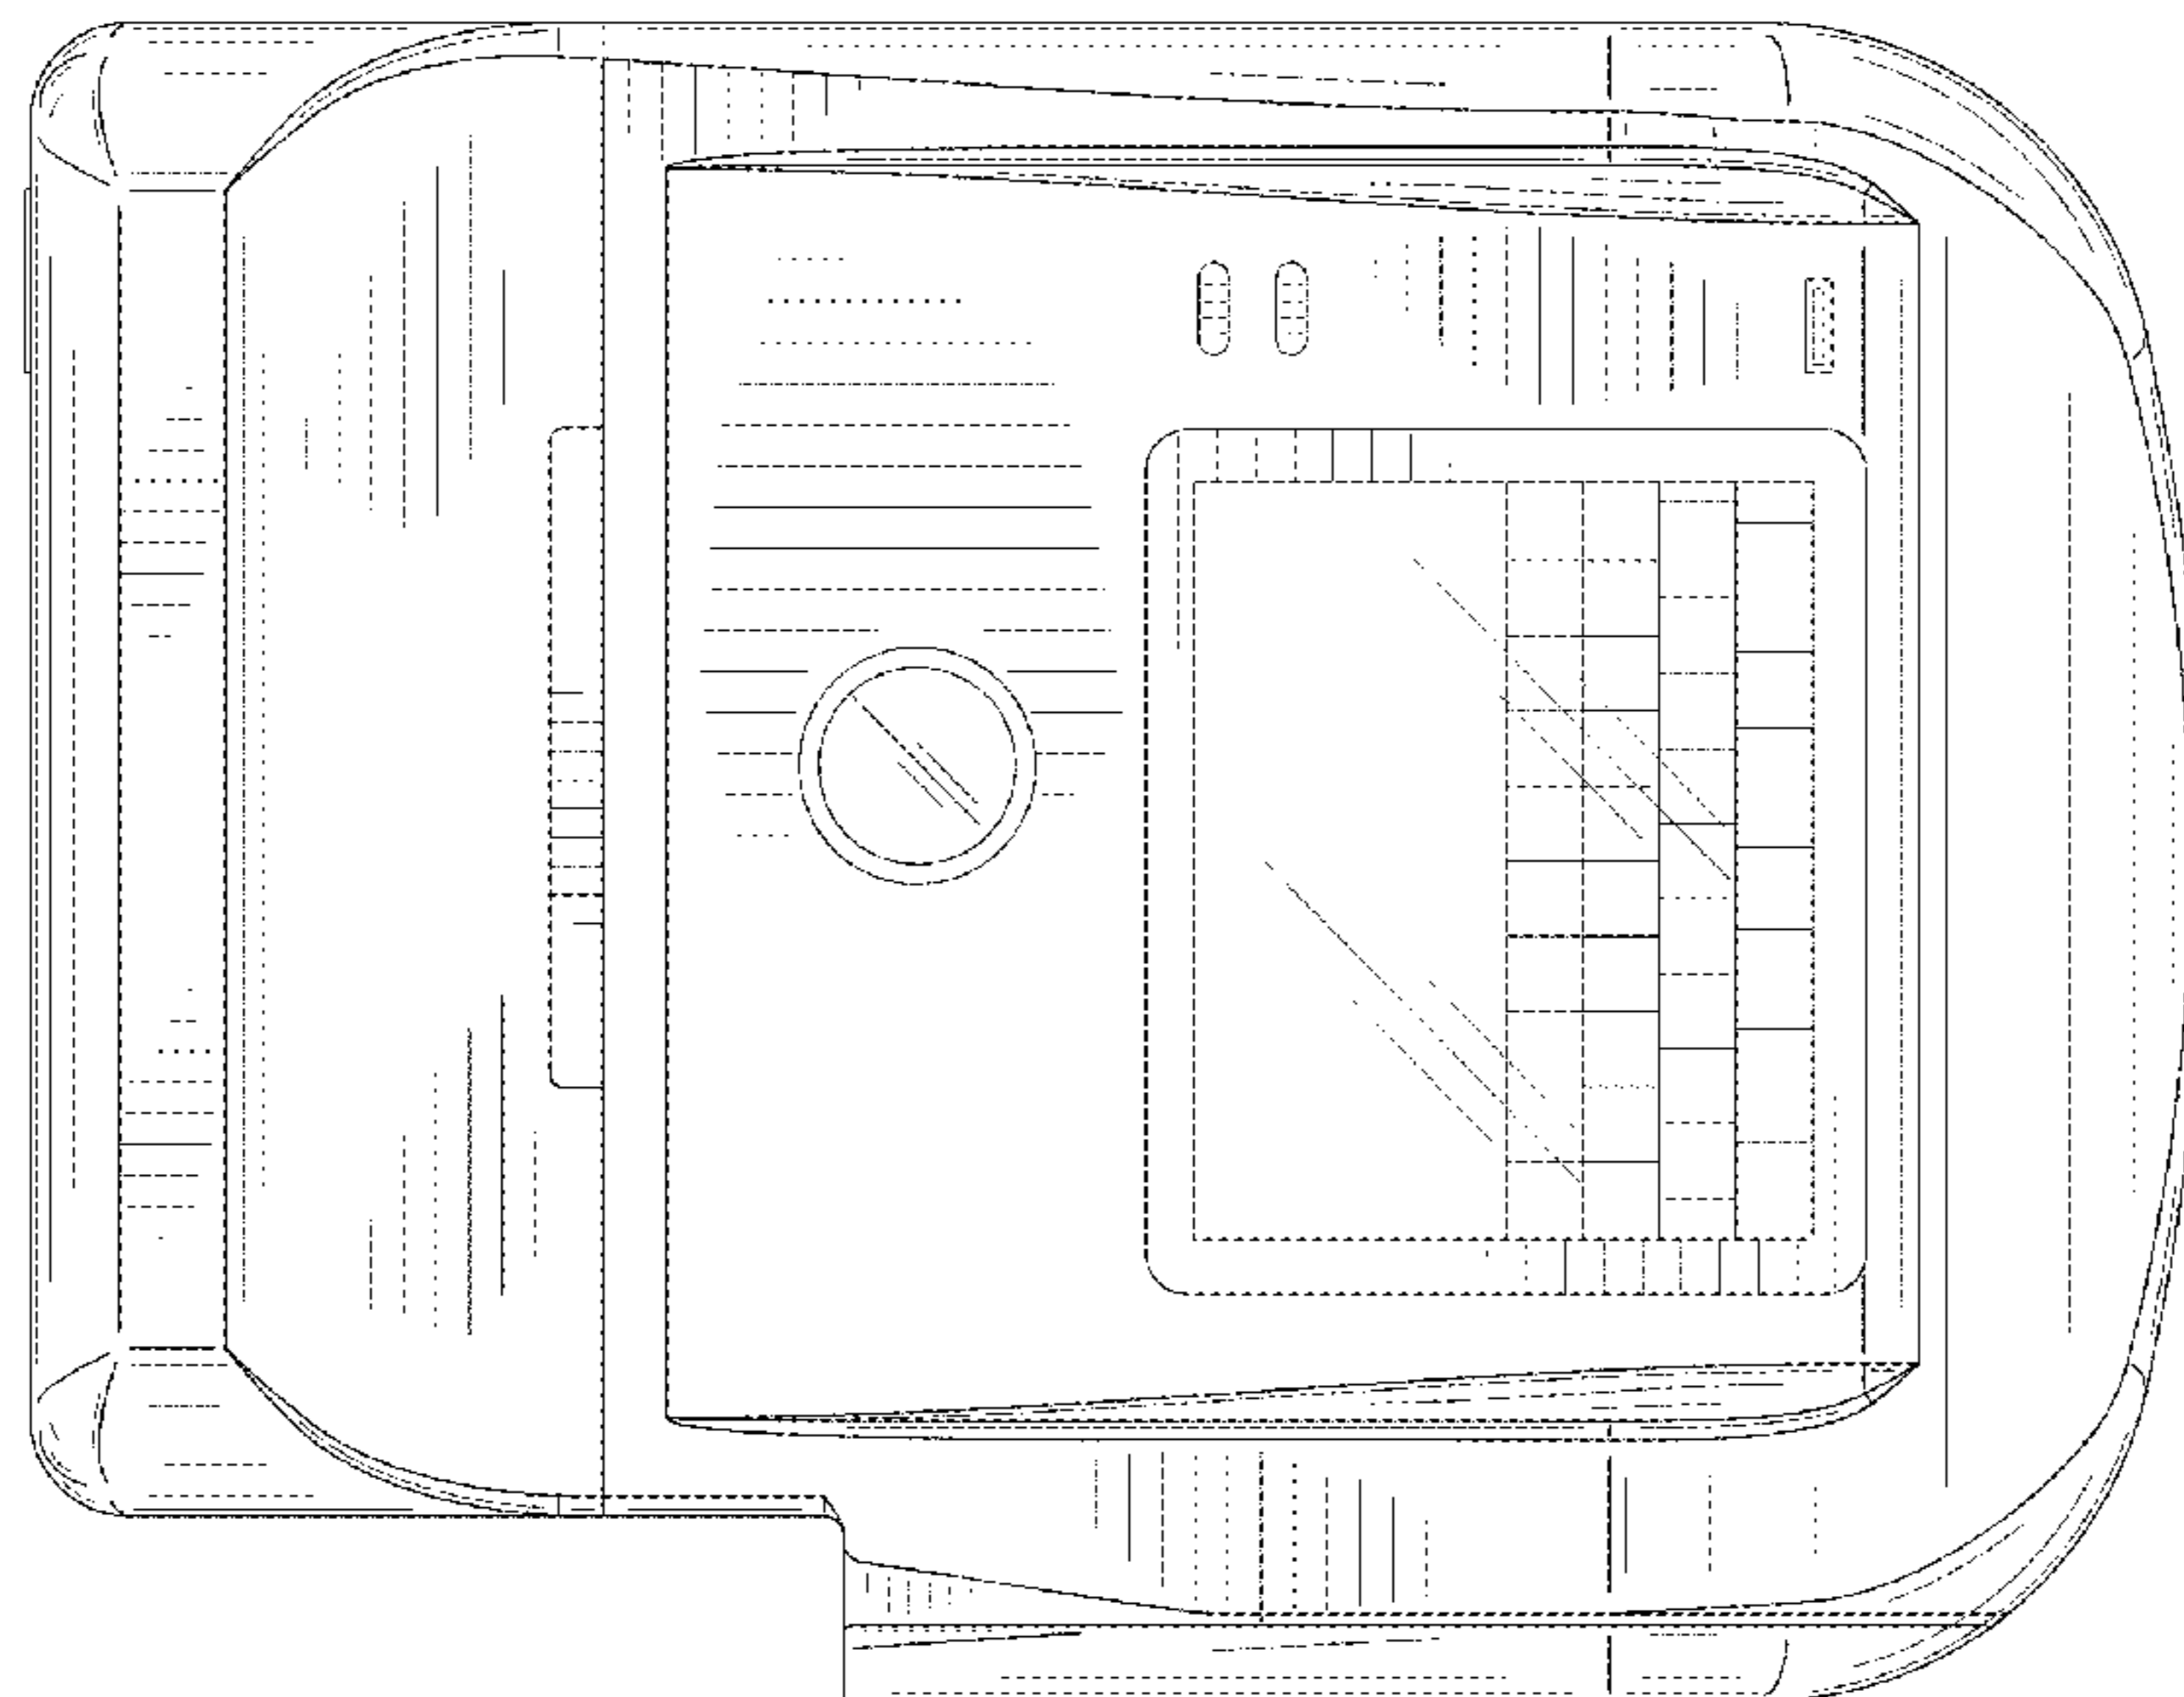

The broken lines depicted in FIG. 2 & FIGS. 5-8 depict a paper showing the environment forming no part of the claimed design.
