(57) **CLAIM**

The ornamental design for a computing device with a display screen having a graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of the first image in the sequence for the present design showing our new design; FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof.

The appearance of the animated user interface sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another forms no part of the claimed design.

The three broken lines around along the outside and the circle illustrate the computing device. All of the broken lines located on the display screen are included for illustrative purposes. None of the broken lines form any part of the claim.
