(57) **CLAIM**

The ornamental design for a combined decorative composition book and planner, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the combined decorative composition book and planner showing my new design.

FIG. 2 is a front view of the combined decorative composition book and planner showing my new design.

FIG. 3 is a rear view of the combined decorative composition book and planner showing my new design.

FIG. 4 is a left-side view of the combined decorative composition book and planner showing my new design.

FIG. 5 is a right-side view of the combined decorative composition book and planner showing my new design.

FIG. 6 is a top view of the combined decorative composition book and planner showing my new design.

FIG. 7 is a bottom view of the combined decorative composition book and planner showing my new design.

FIG. 8 is a perspective view of the combined decorative composition book and planner, showing its first open position configuration thereof.

FIG. 9 is a perspective view of the combined decorative composition book and planner, showing its second open position configuration thereof.

FIG. 10 is a perspective view of the combined decorative composition book and planner, showing its third open position configuration thereof.

FIG. 11 is a perspective view of the combined decorative composition book and planner, showing its fourth open position configuration thereof.

FIG. 12 is a perspective view of the combined decorative composition book and planner, showing its fifth open position configuration thereof.

FIG. 13 is a perspective view of the combined decorative composition book and planner, showing its sixth open position configuration thereof.

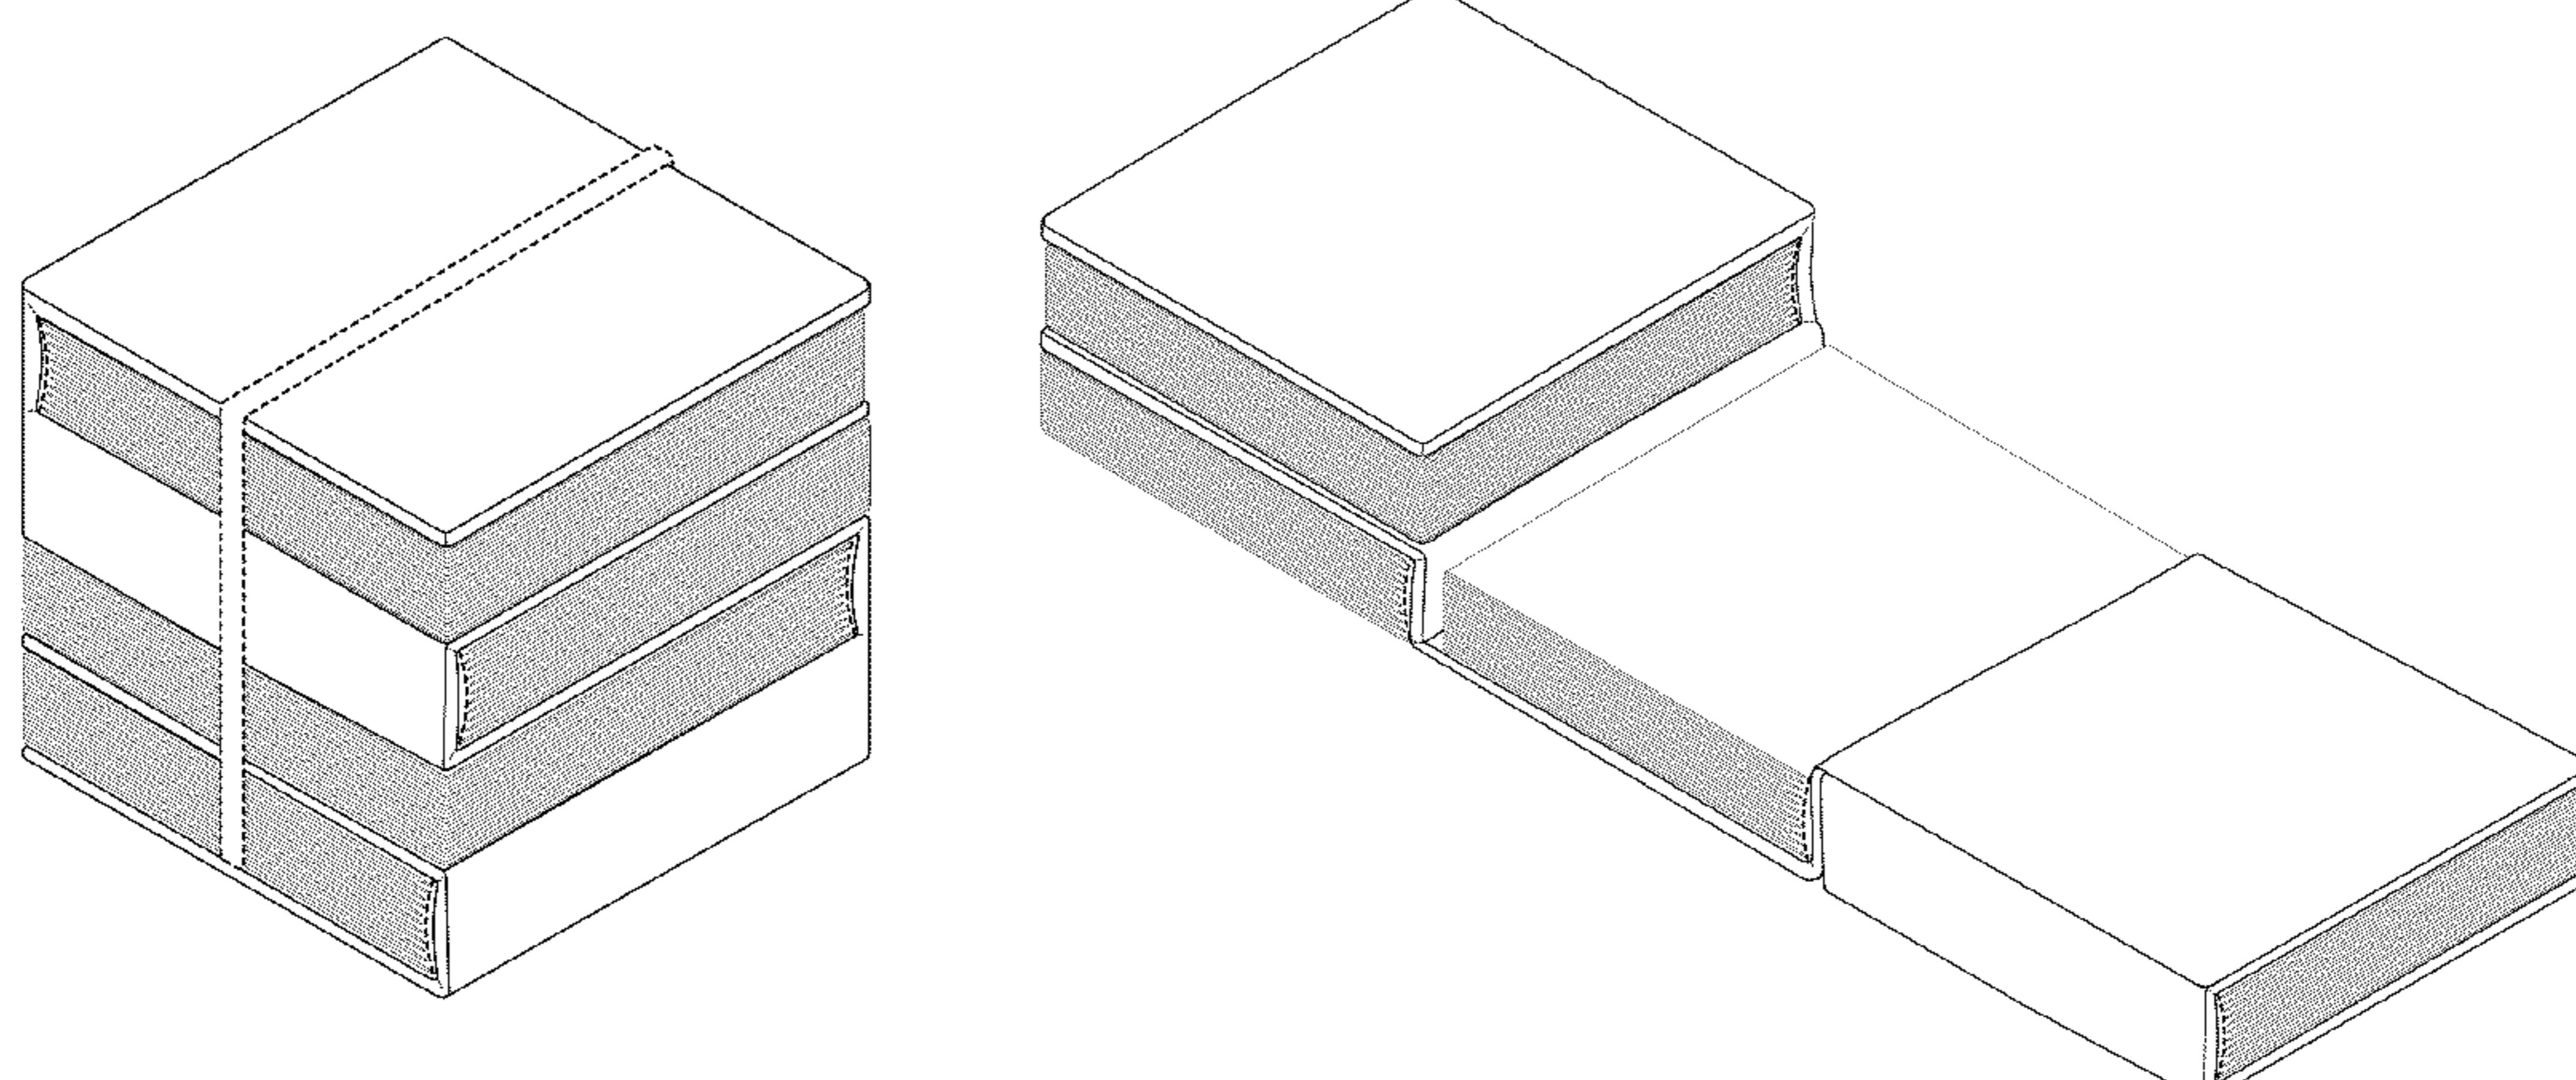

FIG. 14 is a perspective view of the combined decorative composition book and planner, showing its seventh open position configuration thereof.

FIG. 15 is a perspective view of the combined decorative composition book and planner, showing its eighth open position configuration thereof.

FIG. 16 is a perspective view of the combined decorative composition book and planner, showing its ninth open position configuration thereof, and,

FIG. 17 is a perspective view of the combined decorative composition book and planner, showing its tenth open position configuration thereof.

The design is directed to the ornamentation applied to the combined decorative composition book and planner. The broken lines in the drawings illustrate portions of the decorative composition book and planner and form no part of the claimed design.
