image capturing means, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of the electronic card reader device with image capturing means.

FIG. 2 is a bottom perspective view of the electronic card reader device with image capturing means.

FIG. 3 is a top plan view of the electronic card reader device with image capturing means.

FIG. 4 is a bottom plan view of the electronic card reader device with image capturing means.

FIG. 5 is a front view of the electronic card reader device with image capturing means.

FIG. 6 is a rear view of the electronic card reader device with image capturing means.

FIG. 7 is a right side perspective view of the electronic card reader device with image capturing means.

FIG. 8 is a left side perspective view of the electronic card reader device with image capturing means; and, FIG. 9 is a top perspective view of the electronic card reader device with image capturing means in use with a card.

The broken lines shown in FIG. 9 depict a card showing the environment when the electronic card reader device with image capturing means is in use and form no part of the claimed design.
