A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyright rights whatsoever.

FIG. 1 is a front view of a first embodiment of a portion of a display screen with user interface showing our new design, wherein the user interface includes a region having an opacity gradient that is depicted in the drawing by speckles.

FIG. 2 is a front view of a second embodiment of a portion of a display screen with user interface showing our new design, wherein the user interface includes a region having an opacity gradient that is depicted in the drawing by speckles; and,

FIG. 3 is a front view of a third embodiment of a portion of a display screen with user interface showing our new design, wherein the user interface includes a region having an opacity gradient that is depicted in the drawing by speckles.

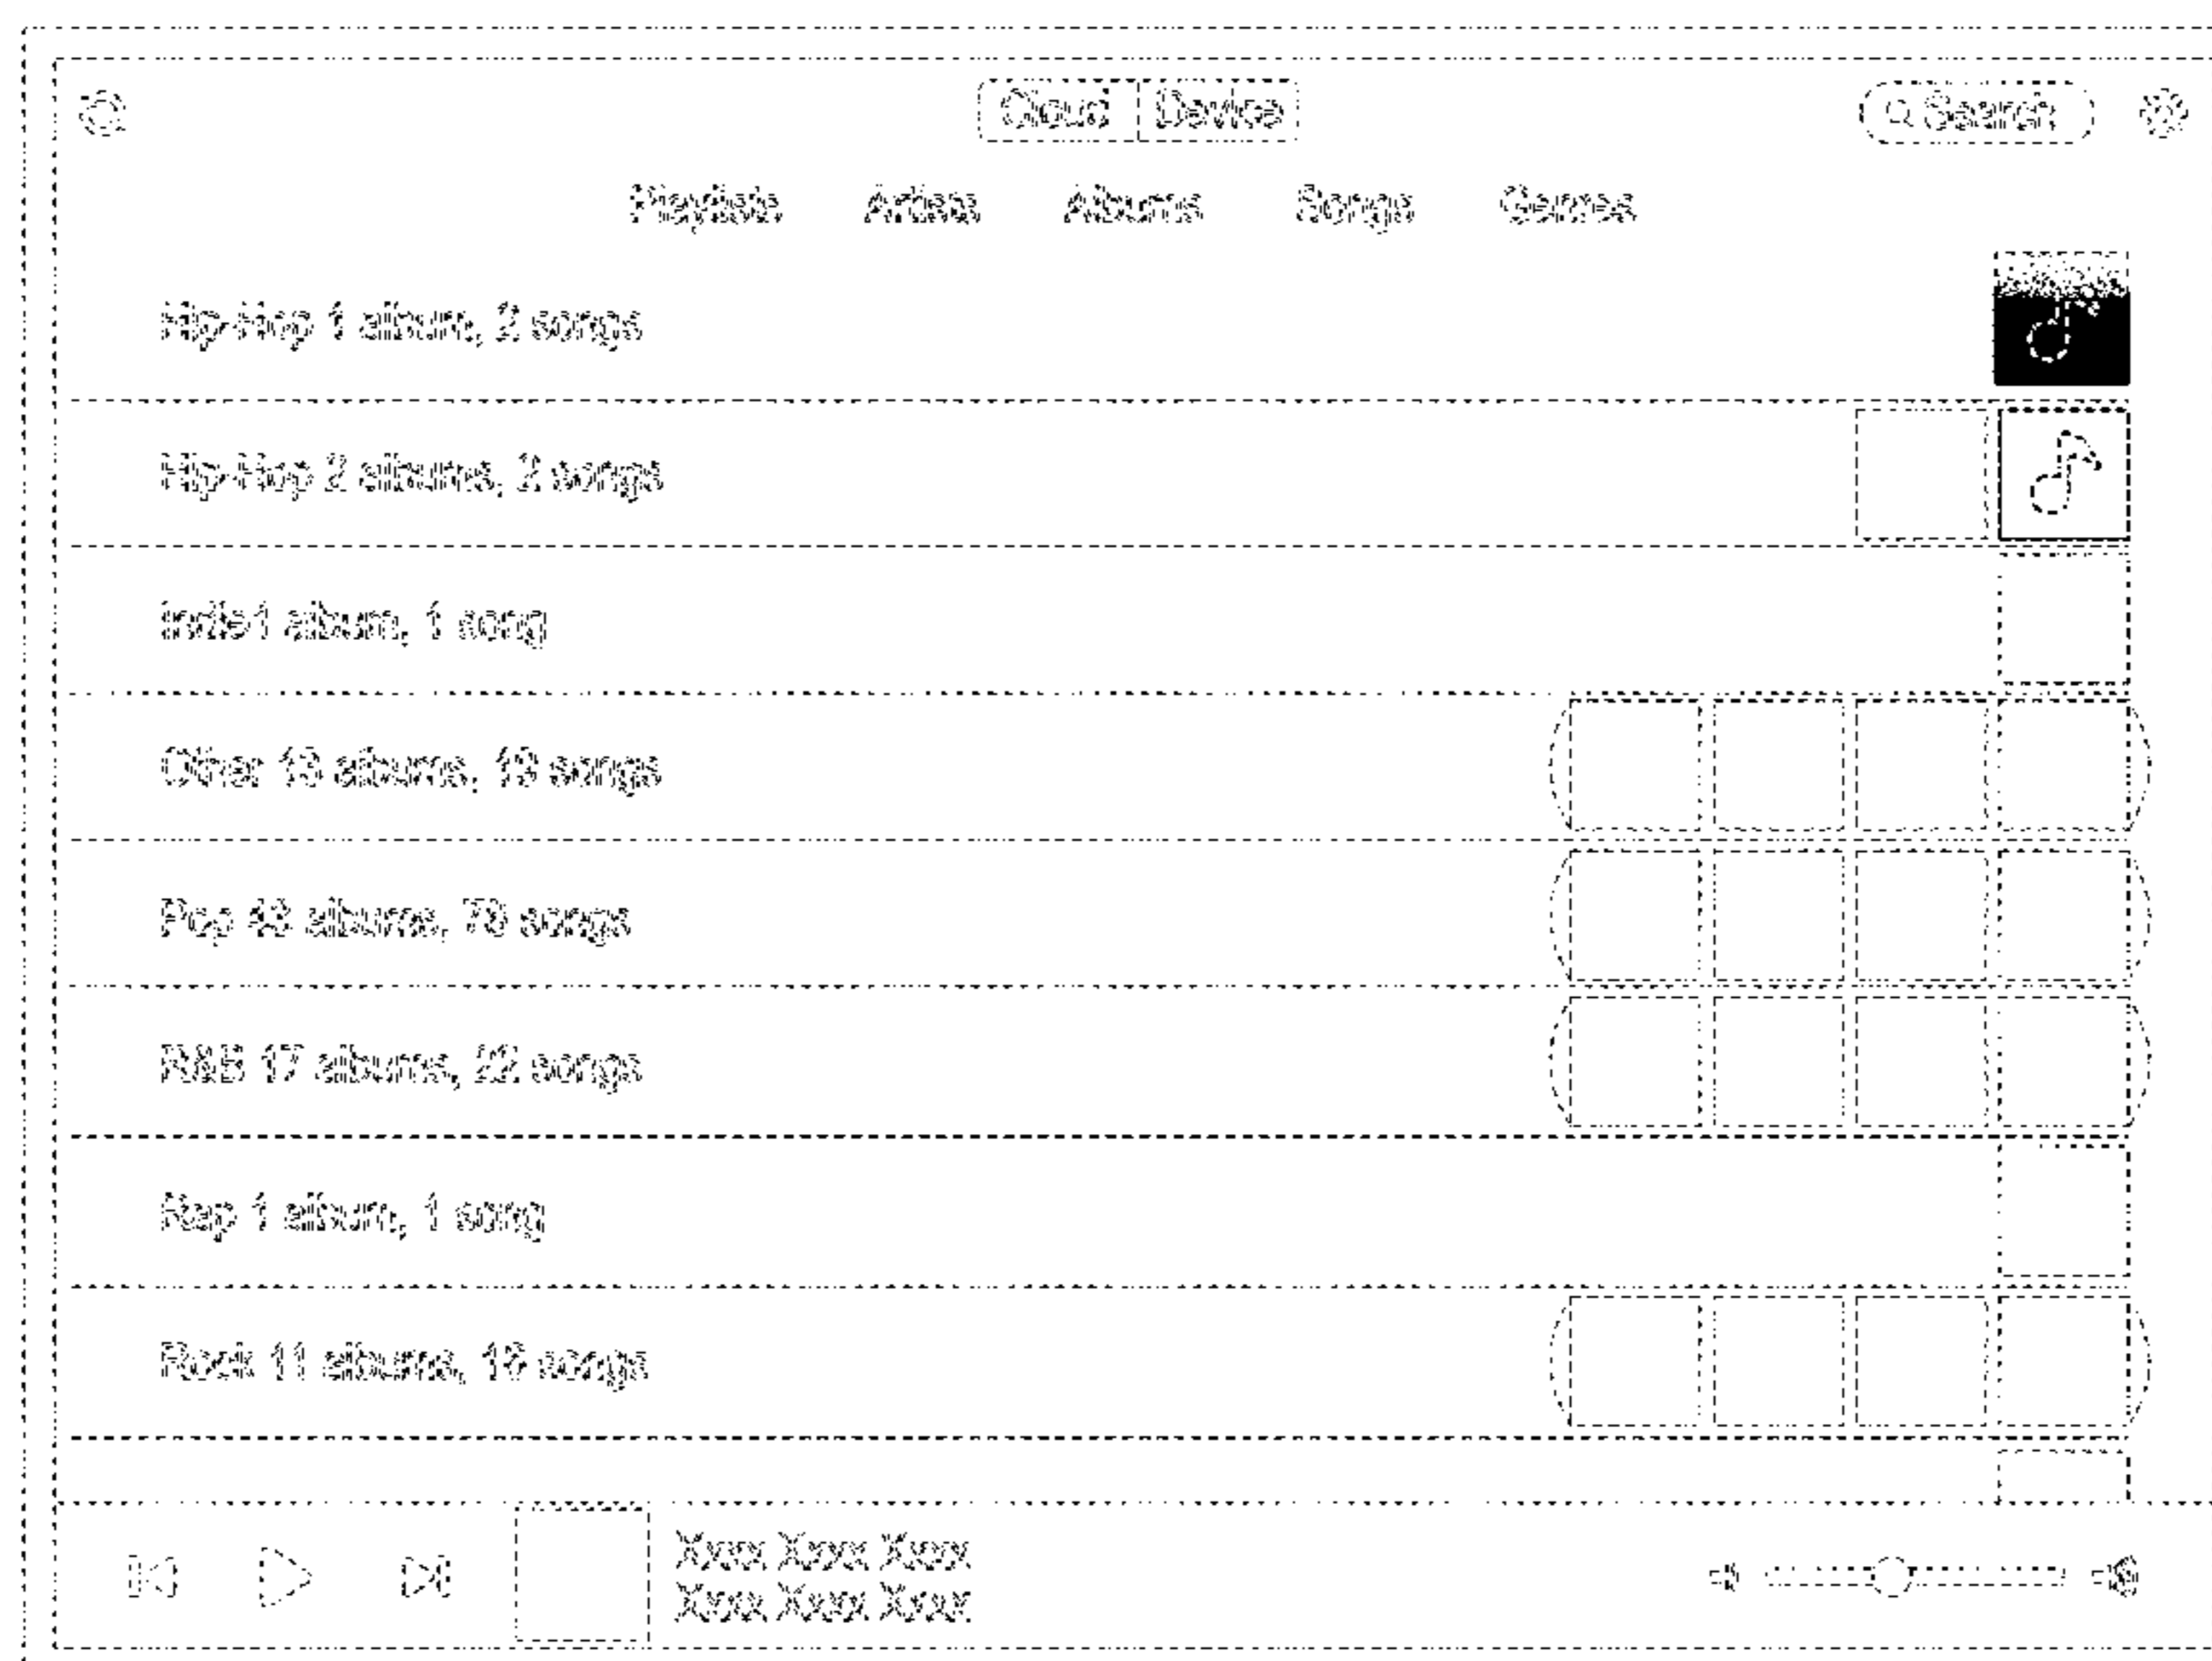

The broken lines depicted in the figures of various components of the user interface and/or the display device are for illustrative purposes only and form no part of the claimed design.
