(57) **CLAIM**

The ornamental design for a nested set of pots with lids, as shown and described.

DESCRIPTION

FIG. 1 is an upper perspective view of a nested set of pots with lids, showing my new design in a nested state;
FIG. 2 is an upper perspective view thereof in an exploded state;
FIG. 3 is a front view thereof in the nested state;
FIG. 4 is a right side view thereof in the nested state;
FIG. 5 is an upper perspective view of the pots of the nested set of pots with lids in a nested state, shown without the lids for clarity and completeness of disclosure;
FIG. 6 is an upper perspective view of the lids of the nested set of pots with lids in an exploded state, shown without the pots for clarity and completeness of disclosure; and,
FIG. 7 is a top view thereof.

A rear view and a left side view of the nested set of pots with lids are omitted as they are symmetric in appearance to the front view of FIG. 3 and the right side view of FIG. 4, respectively. A bottom view is omitted because it is plain and unornamental, and forms no part of the subject matter of the claimed design.
