(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in the sequence for a display screen with animated graphical user interface showing my new design;

FIG. 2 is a second image thereof; and,

FIG. 3 is a third image thereof in a state in which the upper left-hand box marked "3" in FIG. 1 has been selected by the user.

The broken lines represent a display screen and environmental elements. None form part of the claim. The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
