(57) **CLAIM**

The ornamental design for a display panel or screen with a graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front elevational view of a first embodiment of a display panel or screen with a graphical user interface showing our new design;

FIG. 2 is a front elevational view of a second embodiment thereof;

FIG. 3 is a front elevational view of a third embodiment thereof; and,

FIG. 4 is a front elevational view of a fourth embodiment thereof.

The broken line showing of a display panel or screen, and other elements form no part of the claimed design. Dot-dash broken lines showing a portion of the display panel or screen define the boundaries of, but are not included in, the claimed design. The dash lines within the dot-dash lines and the areas surrounded by the dash lines show environment that form no part of the claimed design. The areas of lighter grey surrounded by dash lines form no part of the claimed design.
