(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface, showing the new design;

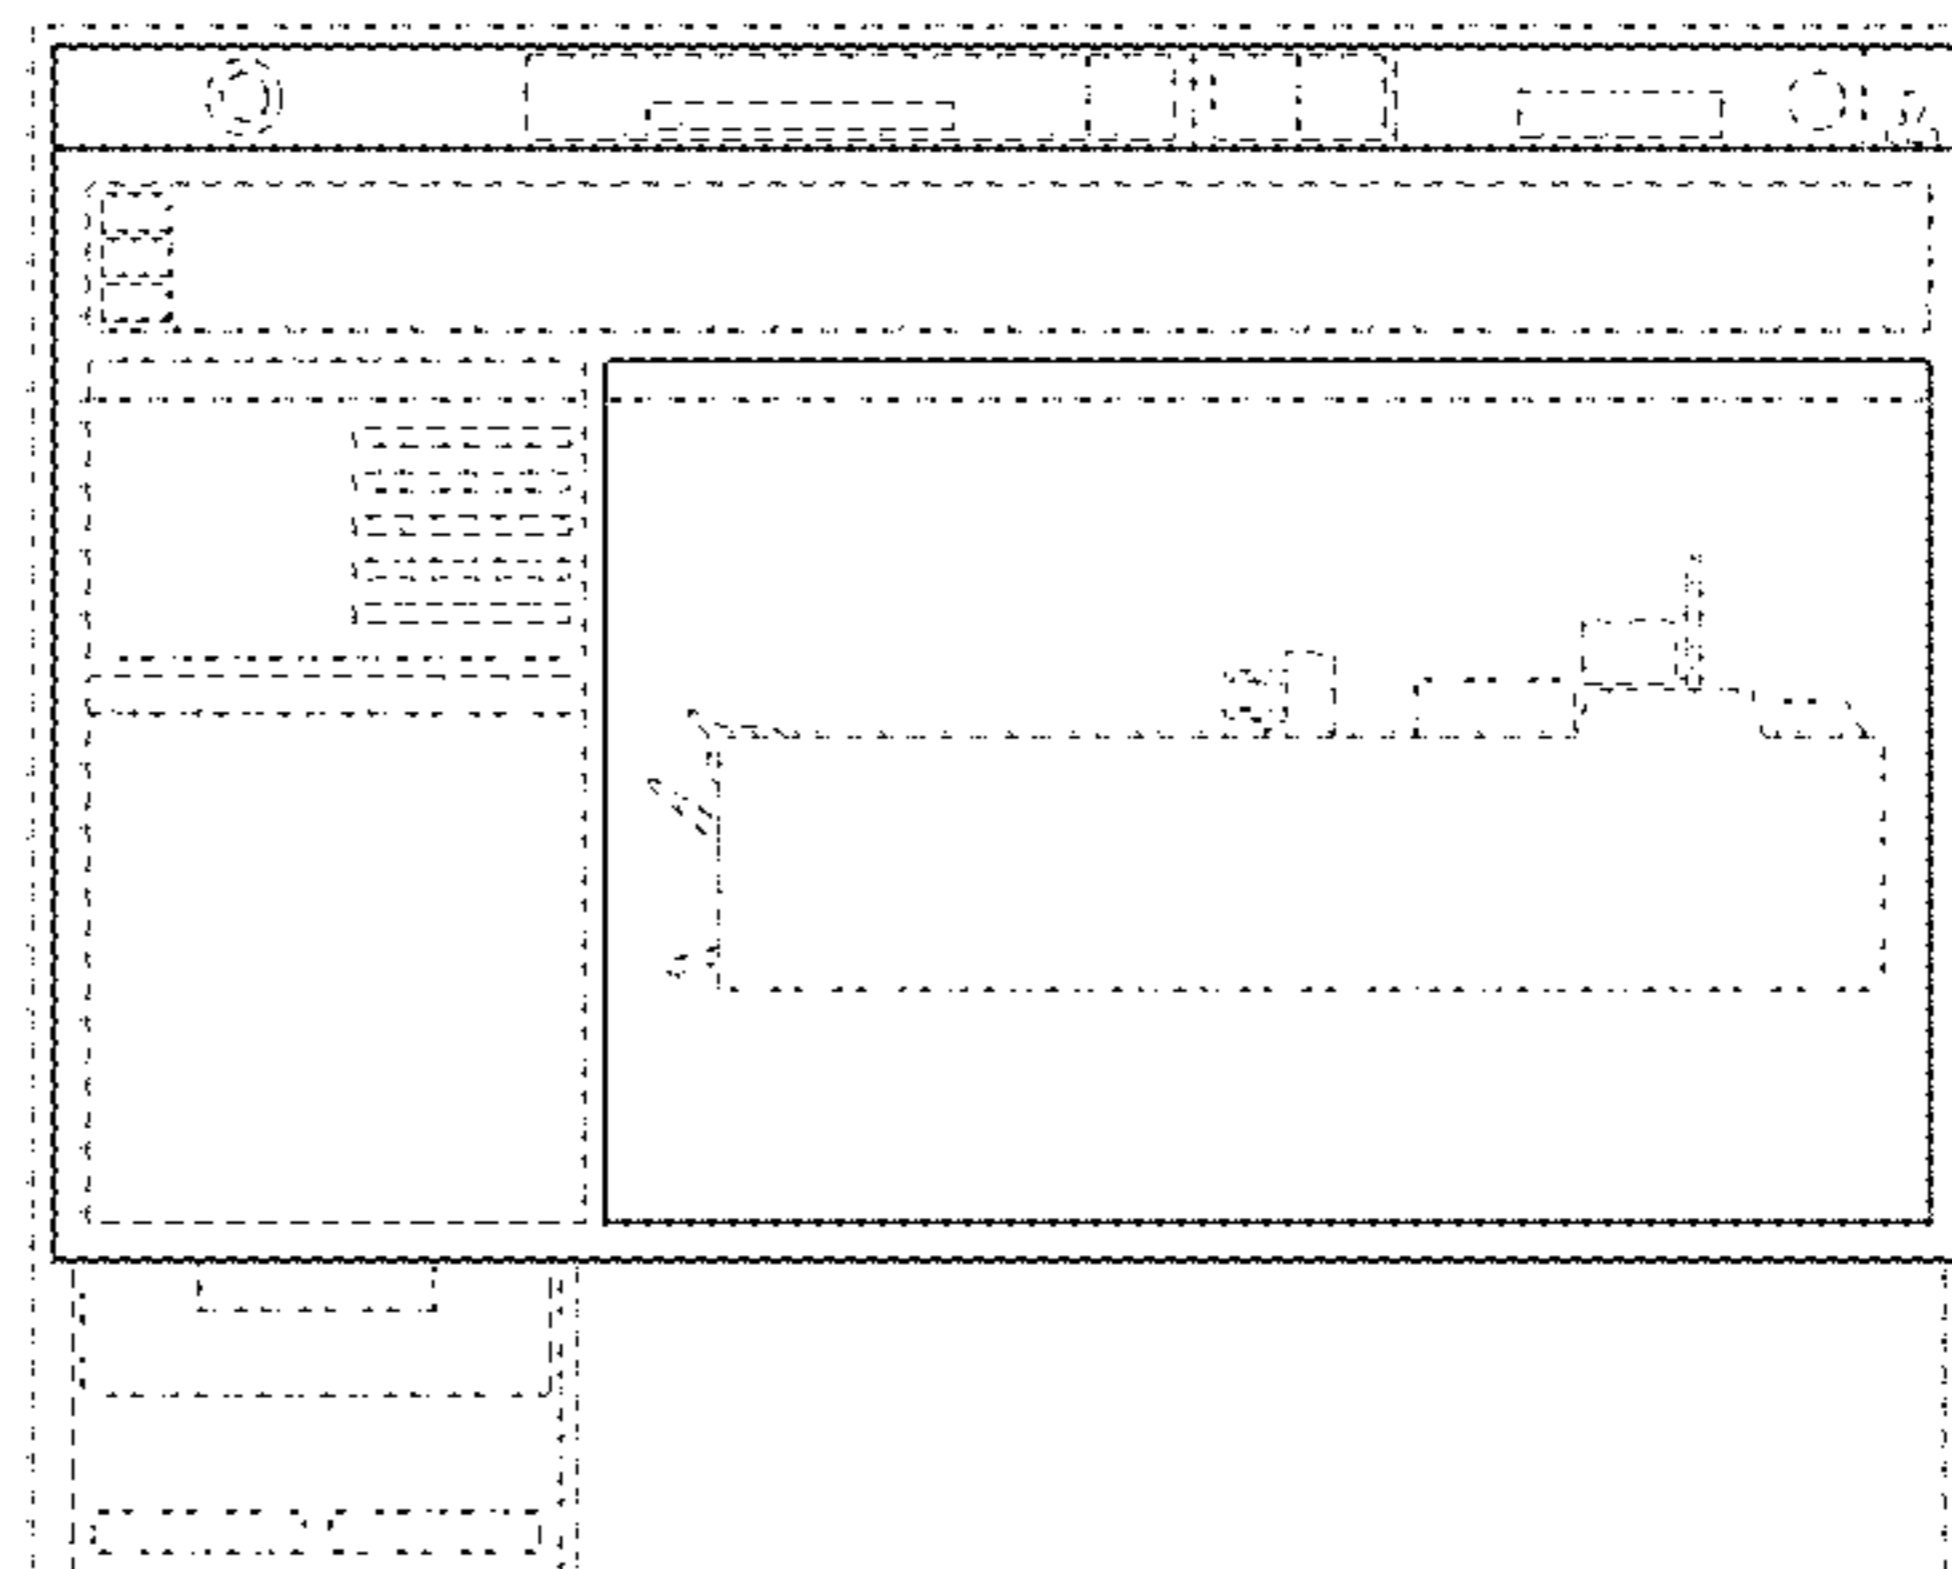

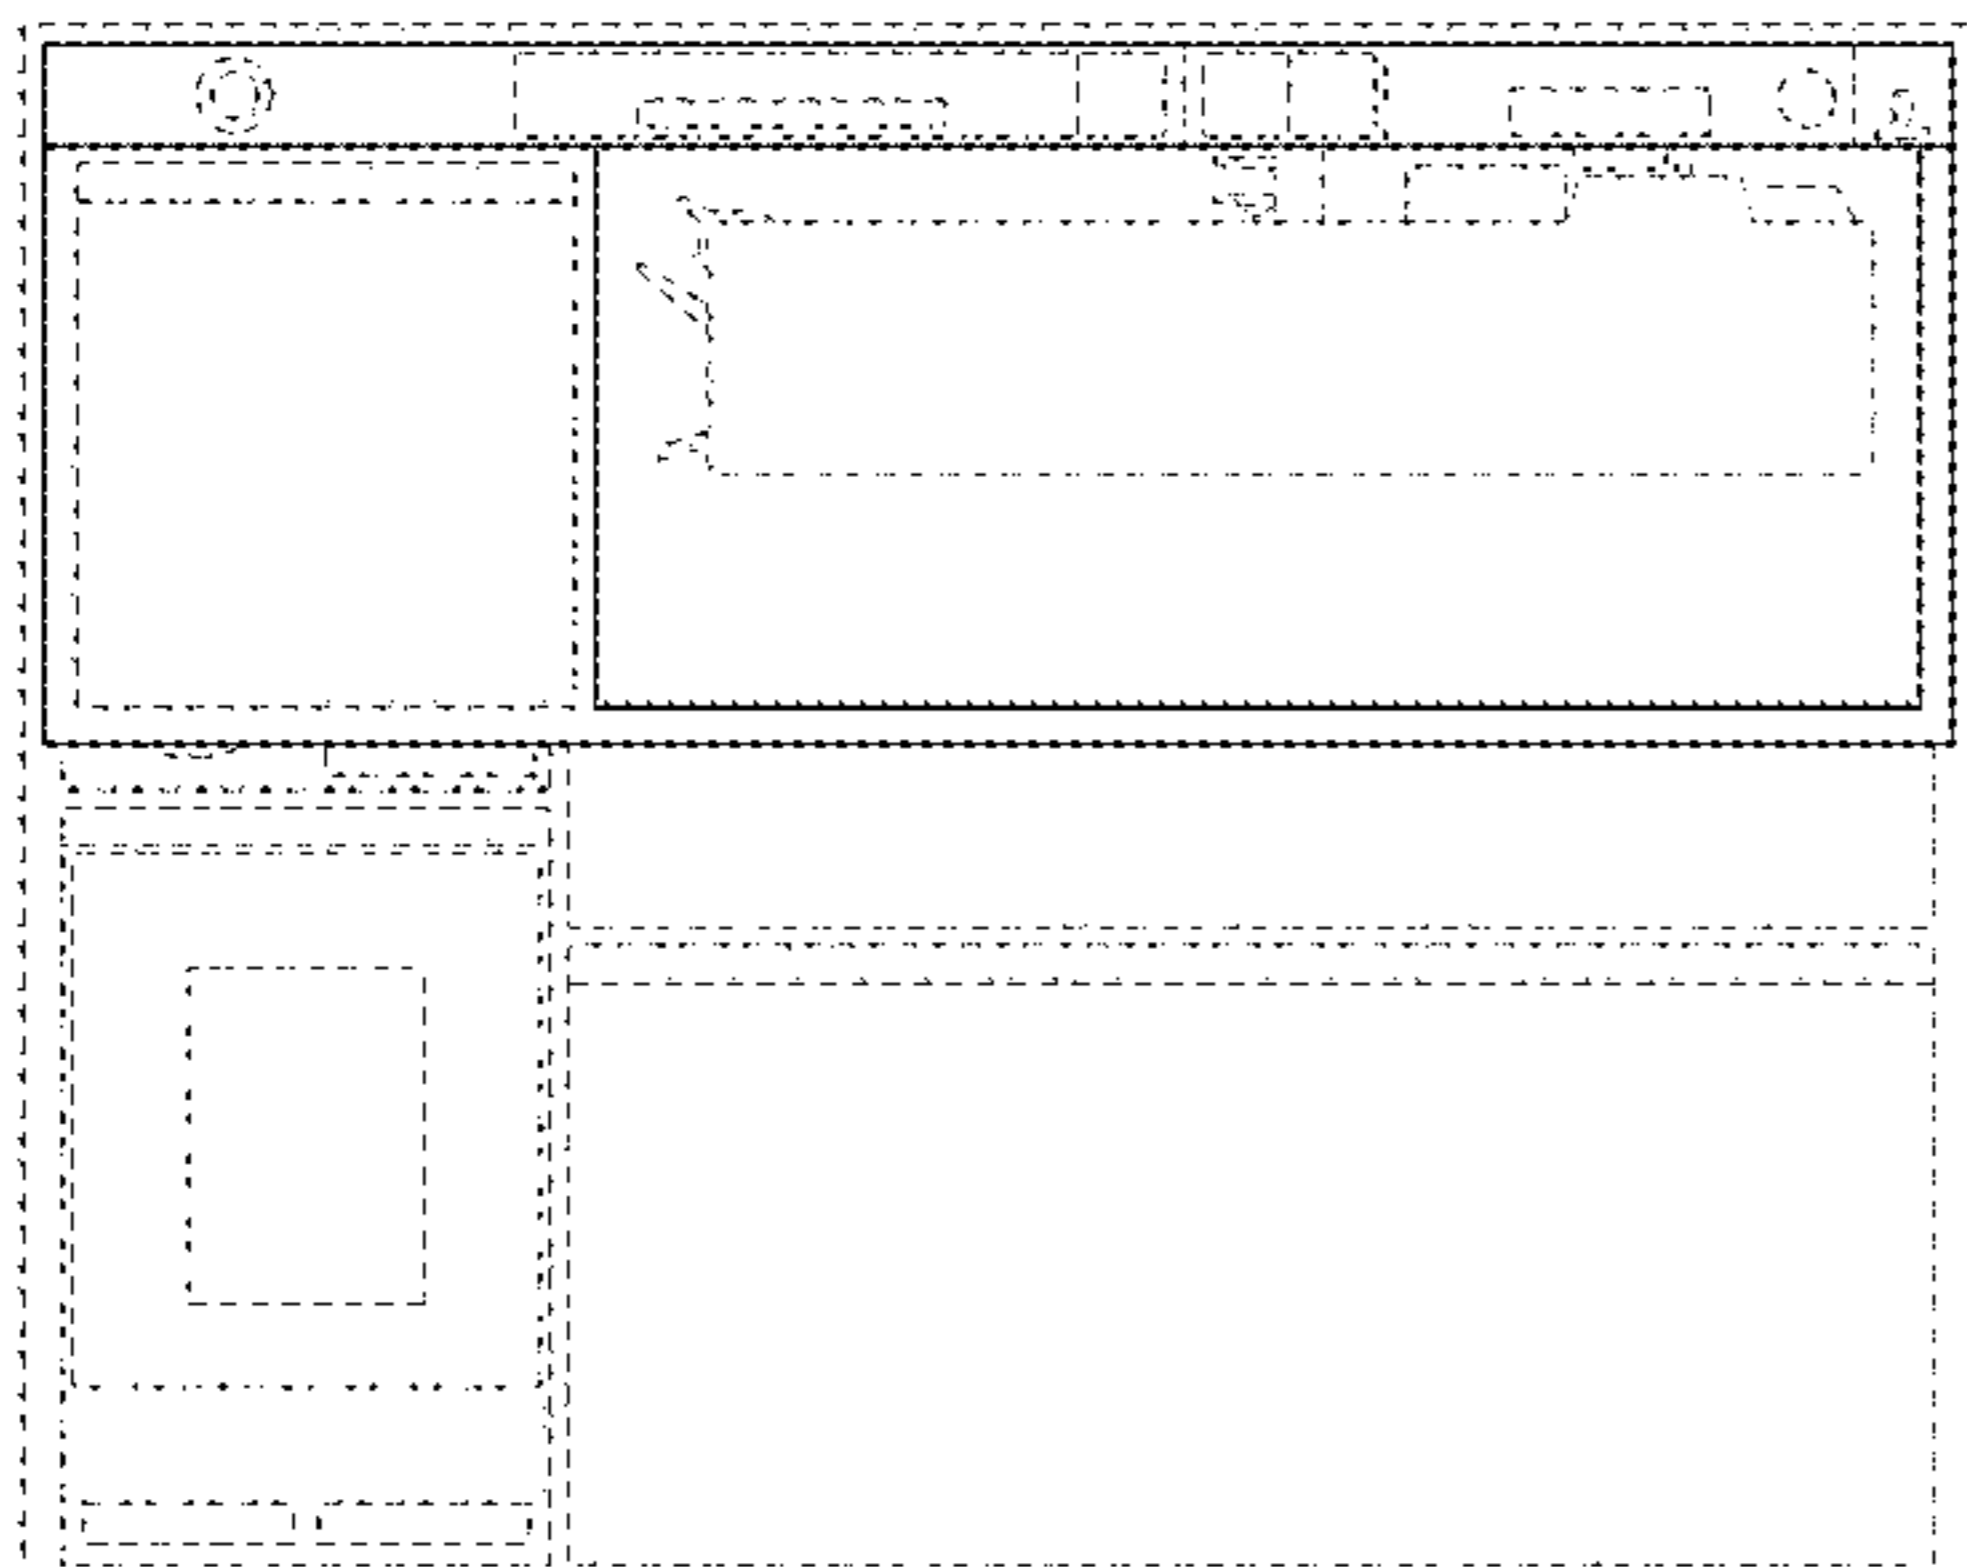

FIG. 2 is another front view thereof; and,

FIG. 3 is yet another front view thereof.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.

The rectangular broken line that extends around the outermost periphery of each of FIGS. 1-3 defines the bounds of the claimed design, although the boundary line itself forms no part of the claimed design. The other broken lines in FIGS. 1-3 are for the purpose of illustrating environmental structure and form no part of the claimed design. Subject matter shown in broken lines in the drawings forms no part of the claimed design.
