(57) **CLAIM**

The ornamental design for a nasal aspirator assembly, as shown and described.

DESCRIPTION

FIG. 1 is a bottom perspective exploded view of a nasal aspirator assembly showing the new design, showing an

adaptor piece and a first embodiment of a nose piece and a second embodiment of a nose piece separately for ease of illustration.

FIG. 2 is a front elevation view of the body piece of the nasal aspirator assembly shown separately for ease of illustration; FIG. 3 is a rear elevation view thereof;

FIG. 4 is a right side elevation view thereof;

FIG. 5 is a left side elevation view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a top right perspective view thereof;

FIG. 8 is a bottom right perspective view thereof; and

FIG. 9 is a bottom plan view thereof.

FIG. 10 is a front elevation view of the adaptor piece for the nasal aspirator assembly shown separately for ease of illustration. The rear elevation view is a mirror image thereof;

FIG. 11 is a right side elevation view thereof. The left side elevation view is a mirror image thereof;

FIG. 12 is a top plan view thereof;

FIG. 13 is a bottom plan view thereof; and

FIG. 14 is a top perspective view thereof.

FIG. 15 is a front elevation view of the first embodiment of a nose piece for the nasal aspirator assembly. The rear elevation view is a mirror image thereof;

FIG. 16 is a right elevation view thereof. The left side elevation view is a mirror image thereof;

FIG. 17 is a top plan view thereof; and

FIG. 18 is a bottom plan view thereof.

FIG. 19 is a front elevation view of the second embodiment of a nose piece for the nasal aspirator assembly. The rear elevation view is a mirror image thereof;

FIG. 20 is a right side elevation view thereof. The left side elevation view is a mirror image thereof;

FIG. 21 is a top plan view thereof; and

FIG. 22 is a bottom plan view thereof.

The broken lines showing the tubing in FIG. 1 illustrates the environment of the claimed design and forms no part thereof. All other broken lines illustrate portions of the nasal aspirator assembly which form no art of the claimed design.

The nasal aspirator assembly has an adaptor that can fit over a body piece, and has two different nose pieces that are interchangeable.

1 Claim, 7 Drawing Sheets
