(57) **CLAIM**

The ornamental design for a dual wall mount and ground mount LED spotlight, as shown and described.

### DESCRIPTION

FIG. 1 is a front elevational view of a dual wall mount and ground mount LED spotlight showing my new design;

FIG. 2 is a rear elevational view thereof;  
FIG. 3 is a right side elevational view thereof;  
FIG. 4 is a left side elevational view thereof;  
FIG. 5 is a top plan view thereof;  
FIG. 6 is a bottom plan view thereof;  
FIG. 7 is a bottom plan view of the LED spotlight head component of my design, with the other portions being omitted for clarity of illustration;  
FIG. 8 is a top plan view of the spotlight head component thereof;  
FIG. 9 is a front elevational view of the spotlight head component thereof;  
FIG. 10 is a rear elevational view of the spotlight head component thereof;  
FIG. 11 is a left side elevational view of the spotlight head component thereof;  
FIG. 12 is a right side elevational view of the spotlight head component thereof;  
FIG. 13 is front elevational view of the cylindrical support component of my design, with the other portions being omitted for clarity of illustration, and the rear and adjacent sides being identical in appearance;  
FIG. 14 is top plan view of the cylindrical support component thereof, the bottom being identical in appearance;  
FIG. 15 is a front elevational view of the dual ground stake component of my design, with the other portions being omitted for clarity of illustration, and the rear elevation being identical in appearance;  
FIG. 16 is a right side elevational view of the ground stake component thereof, with the right side being identical in appearance;  
FIG. 17 is a top plan view of the ground stake component thereof; and,  
FIG. 18 is a bottom plan view of the ground stake component thereof.

The broken-line disclosure in the views represents portions of the spotlight which form no part of the claimed design.
