(57) **CLAIM**  
The ornamental design for a computer display with graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of our new design for a computer display with graphical user interface.  
FIG. 2 is a front view of our new design for a computer display with graphical user interface according to a second embodiment of the present invention; and,  
FIG. 3 is a front view of our new design for a computer display with graphical user interface according to a third embodiment of the present invention.  
The broken line showing of the computer display and portions of the graphical user interface are included for the purpose of illustrating portions of the article and form no part of the claimed design.
