(57) **CLAIM**

The ornamental design for a modular scope mount, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a first top mount of a modular scope mount showing my new design.  
FIG. 2 is a front view of the first top mount of the modular scope mount.  
FIG. 3 is a rear view of the first top mount of the modular scope mount.  
FIG. 4 is a left view of the first top mount of the modular scope mount.  
FIG. 5 is a right view of the first top mount of the modular scope mount.  
FIG. 6 is a top view of the first top mount of the modular scope mount.  
FIG. 7 is a bottom view of the first top mount of the modular scope mount.  
FIG. 8 is a perspective view of a second top mount of the modular scope mount showing my new design.  
FIG. 9 is a front view of the second top mount of the modular scope mount.  
FIG. 10 is a rear view of the second top mount of the modular scope mount.  
FIG. 11 is a left view of the second top mount of the modular scope mount.  
FIG. 12 is a right view of the second top mount of the modular scope mount.

FIG. 13 is a top view of the second top mount of the modular scope mount.

FIG. 14 is a bottom view of second first top mount of the modular scope mount.

FIG. 15 is a perspective view of a third top mount of the modular scope mount showing my new design.

FIG. 16 is a front view of the third top mount of the modular scope mount.

FIG. 17 is a rear view of the third top mount of the modular scope mount.

FIG. 18 is a left view of the third top mount of the modular scope mount.

FIG. 19 is a right view of the third top mount of the modular scope mount.

FIG. 20 is a top view of the third top mount of the modular scope mount.

FIG. 21 is a bottom view of the third top mount of the modular scope mount.

FIG. 22 is a perspective view of a base mount of the modular scope mount showing my new design.

FIG. 23 is a front view of the base mount of the modular scope mount.

FIG. 24 is a rear view of the base mount of the modular scope mount.

FIG. 25 is a left view of the base mount of the modular scope mount.

FIG. 26 is a right view of the base mount of the modular scope mount.

FIG. 27 is a top view of the base mount of the modular scope mount.

FIG. 28 is a bottom view of the base mount of the modular scope mount.

FIG. 29 is a perspective view of the modular scope mount, showing the first and third top mounts selectively and interchangeably mounted on the base mount that the first and third top mounts can be mounted at the front and rear portions of

the base mount respectively, or the first and third top mounts can be mounted at the rear and front portions of the base mount respectively.

FIG. 30 is a perspective view of the modular scope mount, showing the second and third top mounts selectively and interchangeably mounted on the base mount that the second and third top mounts can be mounted at the front and rear portions of the base mount respectively, or the second and third top mounts can be mounted at the rear and front portions of the base mount respectively.

FIG. 31 is a perspective view of the modular scope mount, showing the first and second top mounts selectively and interchangeably mounted on the base mount that the first and second top mounts can be mounted at the front and rear portions of the base mount respectively, or the first and second top mounts can be mounted at the rear and front portions of the base mount respectively.

FIG. 32 is a perspective view of the modular scope mount modulated with the first top mount, the third top mount, and the base mount, showing the modular scope mounted being coupled with a scope and on a clipping mechanism, and showing a microdot being coupled on the first top mount.

FIG. 33 is a perspective view of the modular scope mount modulated with the first top mount, the third top mount, and the base mount, showing the modular scope mounted being coupled with a scope and on a handle, and showing a microdot being coupled on the first top mount.

FIG. 34 is a perspective view of the modular scope mount, showing the two third top mounts mounted on the base mount; and,

FIG. 35 is a perspective view of the modular scope mount, showing the two second top mounts mounted on the base mount.

The broken line portion of the figure drawings is included to show unclaimed subject matter only and forms no part of the claimed design.
