(57) **CLAIM**

The ornamental design for an upper body garment with top open pockets and internal aperture guides, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an upper body garment with top open pockets and internal aperture guides showing the pockets stretched out to capture the internal aperture guides; FIG. 2 is a perspective view thereof; FIG. 3 is a front view thereof; FIG. 4 is a rear view thereof; FIG. 5 is a left-hand side view thereof; FIG. 6 is a right-hand side view thereof; FIG. 7 is a top view thereof; FIG. 8 is a bottom view thereof; FIG. 9 is an exploded partial top perspective view of the right pocket showing an exterior of the upper body garment with top open pockets and internal aperture guides; FIG. 10 is an exploded partial perspective view of the right pocket showing an interior of the upper body garment with top open pockets and internal aperture guides; FIG. 11 an exploded partial bottom perspective view of the right pocket showing an exterior of the upper body garment with top open pockets and internal aperture guides; FIG. 12 is an exploded partial top perspective view of the left pocket showing an exterior of the upper body garment with top open pockets and internal aperture guides; FIG. 13 is an exploded partial perspective view of the left pocket showing an interior of the upper body garment with top open pockets and internal aperture guides; and, FIG. 14 an exploded partial bottom perspective view of the left pocket showing an exterior of the upper body garment with top open pockets and internal aperture guides. FIGS. 9-12 are exploded, partial views to capture details of each pocket, and the use of a separation break in FIGS. 9-12 illustrate a continuation of the article of the design in accordance with the depictions of the article throughout FIGS. 1-8.
