(57) **CLAIM**

I claim the ornamental design for a reticle for a rifle scope or other projectile-weapon aiming device, as shown and described.

DESCRIPTION

FIG. 1 is a view of a reticle for a rifle scope or other projectile-weapon aiming device, as viewed at low magnification through an eyepiece end of a rifle scope, according to a first embodiment;

FIG. 2 is a view of the reticle of FIG. 1, as viewed at high magnification through an eyepiece end of a rifle scope;

FIG. 3 is an enlarged fragmentary view of the reticle of FIG. 1, showing details of a central reticle portion that is indicated in FIG. 2;

FIG. 4 is a view of a reticle for a rifle scope or other projectile-weapon aiming device, as viewed at low magnification through an eyepiece end of a rifle scope, according to a second embodiment;

FIG. 5 is a view of the reticle of FIG. 4, as viewed at high magnification through an eyepiece end of a rifle scope;

FIG. 6 is an enlarged fragmentary view of the reticle of FIG. 4, showing details of a central reticle portion that is indicated in FIG. 5; and,

FIG. 7 is an isometric view of an environment of use for the reticle of FIG. 1 or FIG. 4.

In FIGS. 1-7, the dashed lines indicate environmental features that form no part of the claimed invention.

1 Claim, 7 Drawing Sheets
