(57) **CLAIM**

The ornamental design for a depressible plug for vial, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing my new design for a depressible plug for vial;
 FIG. 2 is a front elevation view thereof;
 FIG. 3 is a rear elevation view thereof;
 FIG. 4 is a left side elevation view thereof;
 FIG. 5 is a right side elevation view thereof;
 FIG. 6 is a top plan view thereof;
 FIG. 7 is a bottom plan view thereof;
 FIG. 8 is a perspective view showing the depressible plug for vial in upside down position;
 FIG. 9 is a perspective view showing the depressible plug for vial in cross-sectional view;
 FIG. 10 is a perspective view showing the depressible plug for vial in ready use inside the Y-connector for an intravenous (IV) fluid flow control device, the Y-connector being shown in broken lines;
 FIG. 11 is a cross-sectional view showing the depressible plug for vial in ready use inside the Y-connector for an intravenous (IV) fluid flow control device, the Y-connector being shown in broken lines; and,
 FIG. 12 is a cross-sectional view showing the depressible plug for vial in use, the depressible plug for vial will be deformed by the compression of the syringe (or the vial), the Y-connector being shown in broken lines.
 The portions of the Y-connector of the intravenous (IV) fluid flow control device and the syringe shown in broken lines form no part of the claimed design.
