(57) **CLAIM**

The ornamental design for a transportation and storage container, as shown and described.

DESCRIPTION

FIG. 1 is a front, right perspective view of a first embodiment of a transportation and storage container according to the design, the front, left perspective view being mirror symmetrical;

FIG. 2 is a front view thereof;

FIG. 3 is a side view thereof, the opposite side view being identical;

FIG. 4 is a rear view thereof;

FIG. 5 is a top view thereof; and

FIG. 6 is a bottom view thereof.

FIG. 7 is a front, right perspective view of a second embodiment of a transportation and storage container according to the design, showing a front element in an alternate position, the front, left perspective view being mirror symmetrical. The rear, top, and bottom views are identical to those of the first embodiment; and,

FIG. 8 is a bottom perspective view of the first and second embodiments of the transportation and storage container according to the design, with the top and middle portions of the first and second embodiments removed for convenience of illustration.

The broken lines immediately adjacent to the shade lines in FIGS. 1, 5, and 7 represent the bounds of the claim. The remaining broken lines illustrate unclaimed portions of the article. None of the broken lines form part of the claimed design. Also enclosed is a set of photographs of an embodiment of the design.

1 Claim, 8 Drawing Sheets
