(57) **CLAIM**

The ornamental design for a four legged folding leg mechanism, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a four legged stool in a folded up position showing the leg mechanism.

FIG. 2 is a front elevation view of the four legged stool in a folded up position showing the leg mechanism.

FIG. 3 is a rear elevation view of the four legged stool in a folded up position showing the leg mechanism.

FIG. 4 is a left side elevation view of the four legged stool in a folded up position showing the leg mechanism.

FIG. 5 is a right side elevation view of the four legged stool in a folded up position showing the leg mechanism.

FIG. 6 is a top plan view of the four legged stool in a folded up position.

FIG. 7 is a bottom plan view of the four legged stool in a folded up position.

FIG. 8 is a perspective view of the four legged stool in a fully open position showing the leg mechanism.

FIG. 9 is a front elevation view of the four legged stool in a fully open position showing the leg mechanism.

FIG. 10 is a rear elevation view of the four legged stool in a fully open position showing the leg mechanism.

FIG. 11 is a left side elevation view of the four legged stool in a fully open position showing the leg mechanism.

FIG. 12 is a right side elevation view of the four legged stool in a folded up position showing the leg mechanism; and,

FIG. 13 is a bottom plan view of the four legged stool in a fully open position.

The broken lines shown in the drawings depict environmental features and subject matter that form no part of the claimed design.

1 Claim, 10 Drawing Sheets
