

US00D733651S

(12) **United States Design Patent**
Liu

(10) **Patent No.:** **US D733,651 S**
(45) **Date of Patent:** **** Jul. 7, 2015**

(54) **CHARGER FOR AN ELECTRONIC CIGARETTE**

(71) Applicant: **Qiuming Liu**, Huizhou (CN)

(72) Inventor: **Qiuming Liu**, Huizhou (CN)

(73) Assignee: **Kimree Hi-Tech Inc.**, Tortola (VG)

(**) Term: **14 Years**

(21) Appl. No.: **29/490,041**

(22) Filed: **May 6, 2014**

(30) **Foreign Application Priority Data**

Mar. 27, 2014 (CN) 2014 3 0067149

(57) **CLAIM**

The ornamental design for a charger for an electronic cigarette, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a charger for an electronic cigarette according to a first embodiment of the present disclosure; FIG. 2 is a rear view of the charger for the electronic cigarette according to the first embodiment of the present disclosure; FIG. 3 is a left view of the charger for the electronic cigarette according to the first embodiment of the present disclosure; FIG. 4 is a right view of the charger for the electronic cigarette according to the first embodiment of the present disclosure; FIG. 5 is a top view of the charger for the electronic cigarette according to the first embodiment of the present disclosure; FIG. 6 is a bottom view of the charger for the electronic cigarette according to the first embodiment of the present disclosure;

FIG. 7 is a perspective view of the charger for the electronic cigarette according to the first embodiment of the present disclosure;

FIG. 8 is a front view of a charger for an electronic cigarette according to a second embodiment of the present disclosure;

FIG. 9 is a rear view of the charger for the electronic cigarette according to the second embodiment of the present disclosure;

FIG. 10 is a left view of the charger for the electronic cigarette according to the second embodiment of the present disclosure;

FIG. 11 is a right view of the charger for the electronic cigarette according to the second embodiment of the present disclosure;

FIG. 12 is a top view of the charger for the electronic cigarette according to the second embodiment of the present disclosure;

FIG. 13 is a bottom view of the charger for the electronic cigarette according to the second embodiment of the present disclosure;

FIG. 14 is a perspective view of the charger for the electronic cigarette according to the second embodiment of the present disclosure;

FIG. 15 is a front view of a charger for an electronic cigarette according to a third embodiment of the present disclosure;

FIG. 16 is a rear view of the charger for the electronic cigarette according to the third embodiment of the present disclosure;

FIG. 17 is a left view of the charger for the electronic cigarette according to the third embodiment of the present disclosure;

FIG. 18 is a right view of the charger for the electronic cigarette according to the third embodiment of the present disclosure;

FIG. 19 is a top view of the charger for the electronic cigarette according to the third embodiment of the present disclosure;

FIG. 20 is a bottom view of the charger for the electronic cigarette according to the third embodiment of the present disclosure;

FIG. 21 is a perspective view of the charger for the electronic cigarette according to the third embodiment of the present disclosure;

FIG. 22 is a front view of a charger for an electronic cigarette according to a fourth embodiment of the present disclosure;

FIG. 23 is a rear view of the charger for the electronic cigarette according to the fourth embodiment of the present disclosure;

FIG. 24 is a left view of the charger for the electronic cigarette according to the fourth embodiment of the present disclosure;

FIG. 25 is a right view of the charger for the electronic cigarette according to the fourth embodiment of the present disclosure;

FIG. 26 is a top view of the charger for the electronic cigarette according to the fourth embodiment of the present disclosure;

FIG. 27 is a bottom view of the charger for the electronic cigarette according to the fourth embodiment of the present disclosure; and,

FIG. 28 is a perspective view of the charger for the electronic cigarette according to the fourth embodiment of the present disclosure.

The broken lines shown in the drawings are included for the purpose of illustrating environmental structure and form no part of the claimed design.
