(57) **CLAIM**

The ornamental design for a display panel or screen with a graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a first embodiment of a display panel or screen with a first image of a graphical user interface showing our new design;
FIG. 2 is a front elevational view of a second image thereof; and
FIG. 3 is a front elevational view of a third image thereof.
FIG. 4 is a front elevational view of a second embodiment of a display panel or screen with a first image of a graphical user interface showing our new design;
FIG. 5 is a front elevational view of a second image thereof; and,
FIG. 6 is a front elevational view of a third image thereof.
The appearance of the image transitions sequentially as shown in FIGS. 1-3 and FIGS. 4-6 respectively. The process or period in which an image transitions to another forms no part of the claimed design. The broken line showing of a display panel or screen, and other elements forms no part of the claimed design.
