(57) **CLAIM**

The ornamental design for a display with changeable computer-generated icon images, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display with a first computer-generated image;
 FIG. 2 is a front view of a display with a second computer-generated image, being changed from the first image;
 FIG. 3 is a front view of a display with a third computer-generated image; and,
 FIG. 4 is a front view of a display with a fourth computer-generated image, being changed from the third image.
 The broken lines shown in the drawings represent environmental structure (e.g., a boundary corresponding to outer edges of a display) and form no part of the claimed design.
 The subject matter in this patent includes processes or periods in which images change into other images. These processes or periods form no part of the claimed designs.

1 Claim, 2 Drawing Sheets
