(57) **CLAIM**

I claim the ornamental design for a cable support insert, as shown and described.

DESCRIPTION

Reference is made to Design application Ser. No. 29/395,835 filed Apr. 6, 2012 which depicts a Mounting Bracket having a tubular upstanding stem into which a depending tubular stem of the cable support insert embodying the present design may telescopically extend.

FIG. 1 is a perspective view showing front, top and right side features of a first embodiment of my design which has an elongate tubular stem that is of indefinite length, with an annular collar on the right side thereof near an upper end of the tubular stem;

FIG. 2 is a front elevation view thereof;

FIG. 3 is a right side elevation view, it being understood that a left side elevation view would be identical hereto;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a perspective view showing front, top and right side features of a second embodiment of my design which has an elongate tubular stem that is of indefinite length, with two annular collars on the right side thereof;

FIG. 7 is a front elevation view thereof;

FIG. 8 is a right side elevation view, it being understood that a left side elevation view would be identical hereto;

FIG. 9 is a top plan view thereof; and,

FIG. 10 is a bottom plan view thereof.

The broken lines showing holes are for the purposes of illustrating environment and forms no part of the claimed design.
