(57) **CLAIM**

The ornamental design for a bottle, as shown and described.

DESCRIPTION

FIG. 1 is a first perspective view of a bottle showing my new design.

FIG. 2 is a second perspective view thereof.

FIG. 3 is a rear elevational view thereof.

FIG. 4 is a front elevational view thereof.

FIG. 5 is a right side elevational view thereof.

FIG. 6 is a left side elevational view thereof.

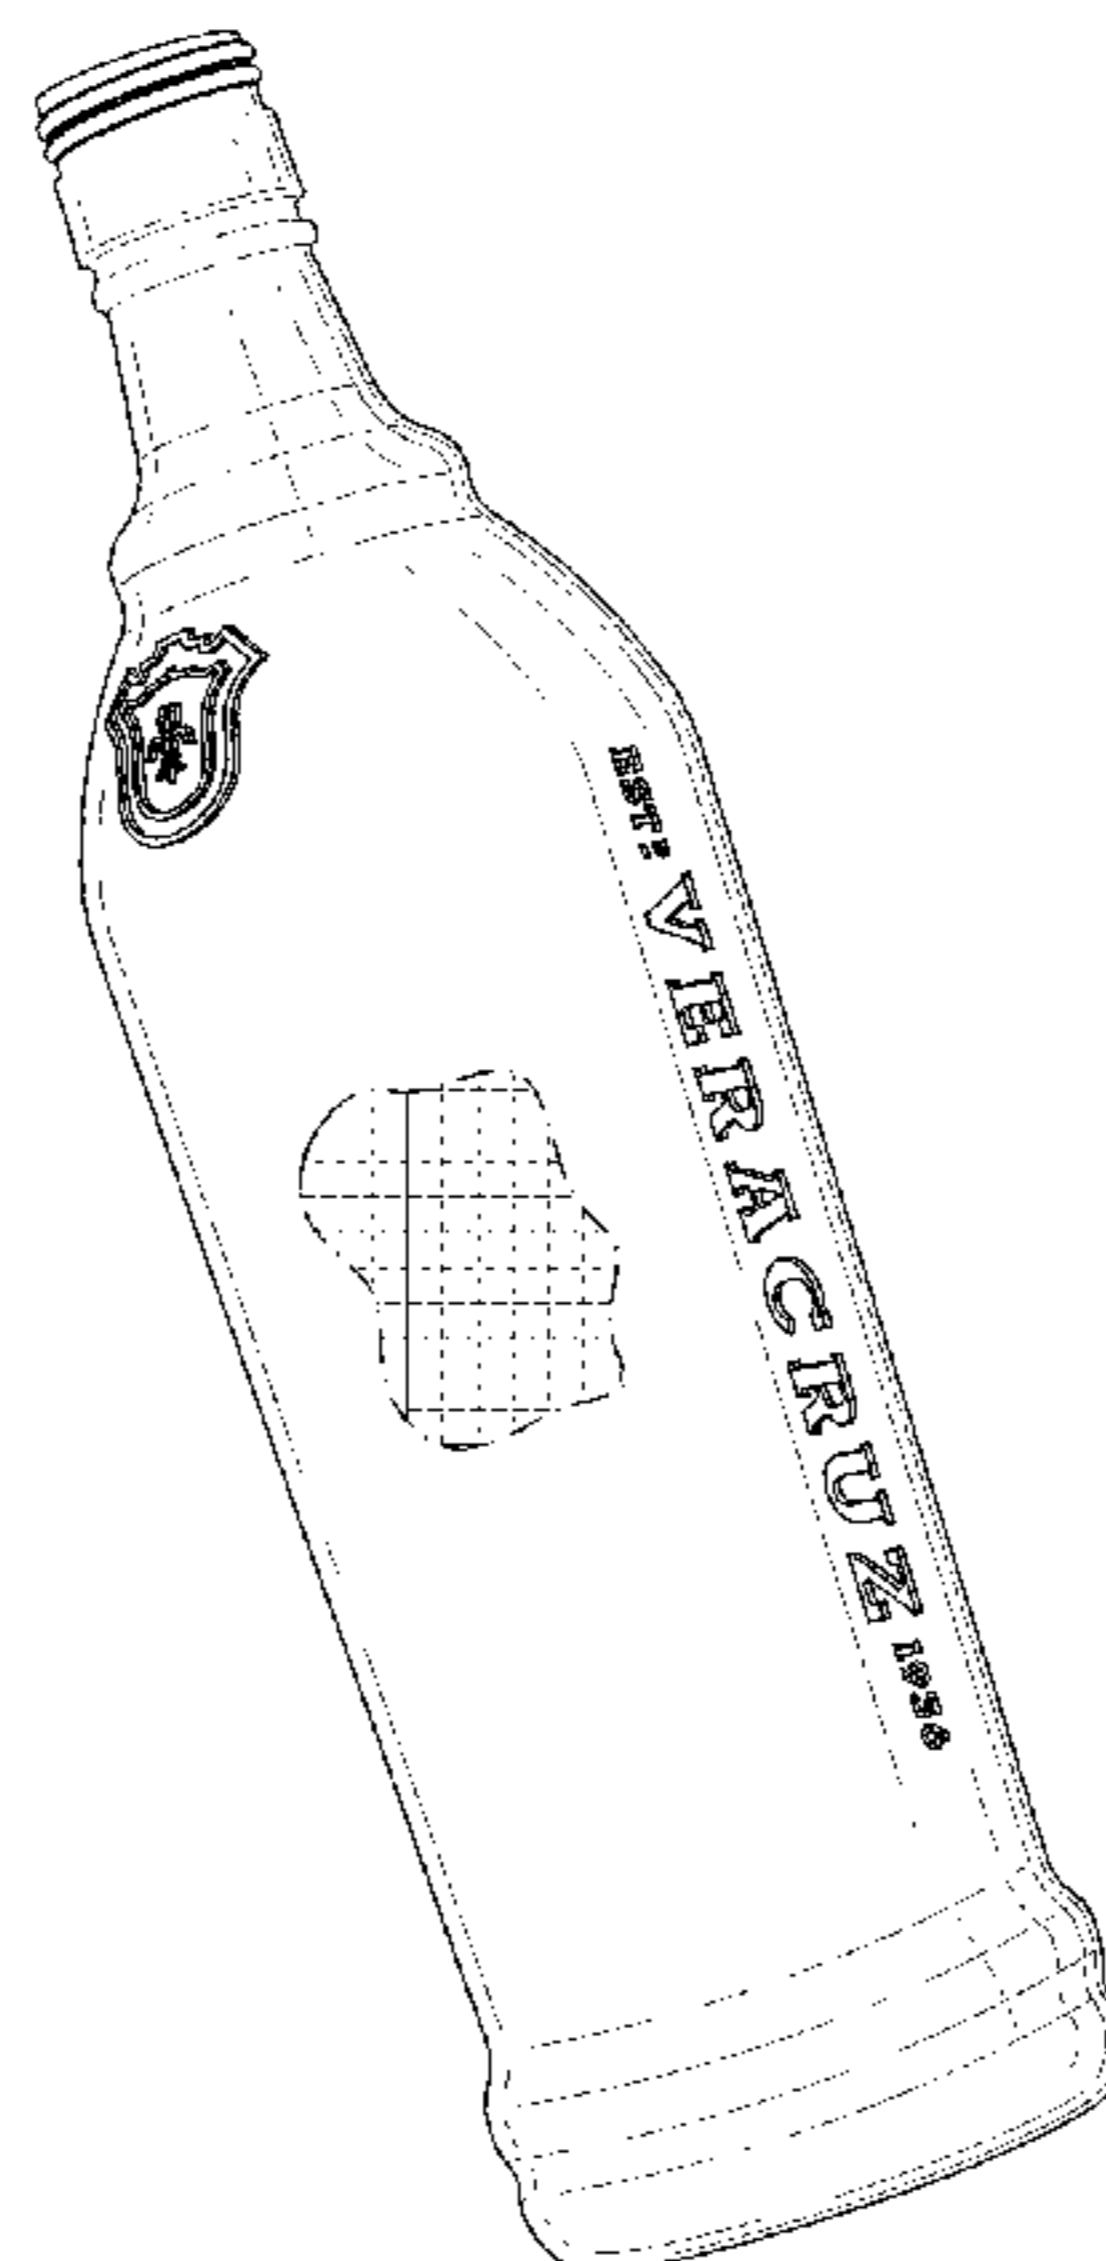

FIG. 7 is a top plan view thereof; and,

FIG. 8 is a bottom plan view thereof.

The broken dot-dash line in FIG. 8 is included to illustrate a boundary line which encloses a portion of the bottle that forms no part of the claimed design.

The partial hatch pattern shown in FIGS. 1-7 indicates an opaque black surface which extends to cover the entire surface of the claimed design. The partial hatch pattern has been used in place of a full hatch pattern in these views so as not to obscure other design elements on the surface of the bottle.
