(57) **CLAIM**

We claim the ornamental design for a surgical console, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a surgical console showing our new design;
 FIG. 2 is a back elevational view thereof;
 FIG. 3 is a side elevational view thereof;
 FIG. 4 is a side elevational view thereof;
 FIG. 5 is a front perspective view thereof;
 FIG. 6 is a front perspective view thereof;
 FIG. 7 is a back perspective view thereof; and,
 FIG. 8 is a back perspective view thereof.

FIGS. 1-8 show features of a surgical console with broken lines. These features are for illustrating reference or environmental structure only and do not form any part of the claimed design.

Surgical console of the present invention is used for controlling various surgical tools, as well as irrigation and aspiration used during ophthalmic surgery.
