(57) **CLAIM**

The ornamental design for a pneumatic tire, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a pneumatic tire showing our new design.

FIG. 2 is a front elevational view thereof.

FIG. 3 is a right side elevational view thereof, the other side being a mirror image thereof; and,

FIG. 4 is an enlarged, partial front perspective view thereof. In the drawings, the broken lines defining the sidewall and inner bead depict environmental subject matter that forms no part of the claimed design. The dash-dot-dot-dash lines represent the boundary of the claim.

The tread pattern is understood to repeat uniformly throughout the circumference of the tire, as shown schematically in solid lines.
