CLAIM

The ornamental design for a tire tread for a vehicle tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tire tread for a vehicle tire, showing my new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is an enlarged partial front view thereof;

FIG. 4 is a right side elevational view thereof; and,

FIG. 5 is a left side elevational view thereof.

In the drawings, the broken lines defining the sidewall, and inner bead depict environmental subject matter that forms no part of the claimed design. While only portions of the tread design are shown, it should be understood that the claimed tire tread for a vehicle tire covers the tire circumferentially in its entirety as indicated by the solid lines in FIGS. 1, 2, 4 and 5.
