(57) **CLAIM**

The ornamental design for a plow blade attachment, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a first embodiment of a plow blade attachment according to the present invention; FIG. 2 is a front view of the first embodiment of a plow blade attachment according to the present invention; FIG. 3 is a back view of the first embodiment of a plow blade attachment according to the present invention; FIG. 4 is a left side view of the first embodiment of a plow blade attachment according to the present invention; FIG. 5 is a right side view of the first embodiment of a plow blade attachment according to the present invention; FIG. 6 is a top view of the first embodiment of a plow blade attachment according to the present invention; FIG. 7 is a bottom view of the first embodiment of a plow blade attachment according to the present invention; FIG. 8 is a front perspective view of a second embodiment of a plow blade attachment according to the present invention; FIG. 9 is a front view of the second embodiment of a plow blade attachment according to the present invention; FIG. 10 is a back view of the second embodiment of a plow blade attachment according to the present invention; FIG. 11 is a left side view of the second embodiment of a plow blade attachment according to the present invention; FIG. 12 is a right side view of the second embodiment of a plow blade attachment according to the present invention; FIG. 13 is a top view of the second embodiment of a plow blade attachment according to the present invention; and FIG. 14 is a bottom view of the second embodiment of a plow blade attachment according to the present invention. The broken lines showing portions of the plow blade attachment are for the purpose of illustration only and form no part of the claimed design.
