(57) **CLAIM**

The ornamental design for a surgical rasp, as shown and
described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of a surgical rasp according to my design;
 FIG. 2 is a right side elevation view of the first embodiment of a surgical rasp according to my design;
 FIG. 3 is a left side elevation view of the first embodiment of a surgical rasp according to my design;
 FIG. 4 is an enlarged left side view of the distal end of the first embodiment of a surgical rasp according to my design;
 FIG. 5 is an enlarged left side view of the distal end of a second embodiment of a surgical rasp according to my design; all other views of the second embodiment are identical to those provided herein for the first embodiment, and, for that reason, omitted;
 FIG. 6 is a rear elevation view of the first embodiment or second embodiment of a surgical rasp according to my design;
 FIG. 7 is a front elevation view of the first embodiment or second embodiment of a surgical rasp according to my design;
 FIG. 8 is a top plan view of the first embodiment or second embodiment of a surgical rasp according to my design; and,
 FIG. 9 is a bottom plan view of the first embodiment or second embodiment of a surgical rasp according to my design.
