(57) **CLAIM**

The ornamental design for a set of components for a bed riser,
as shown and described.

DESCRIPTION

FIG. 1 is a perspective view, looking from above of a first
element of a set of components for a bed riser embodying my
new design, the perspective view looking from below is iden-
tical thereto;

FIG. 2 is a top plan view thereof, the bottom plan view being
identical thereto;

FIG. 3 is a first side elevational view thereof, the other three
side elevational views being identical thereto;

FIG. 4 is a perspective view, looking from above, of a second
element of a set of components for a bed riser embodying my
new design;

FIG. 5 is a top plan view thereof, the bottom plan view being
identical thereto;

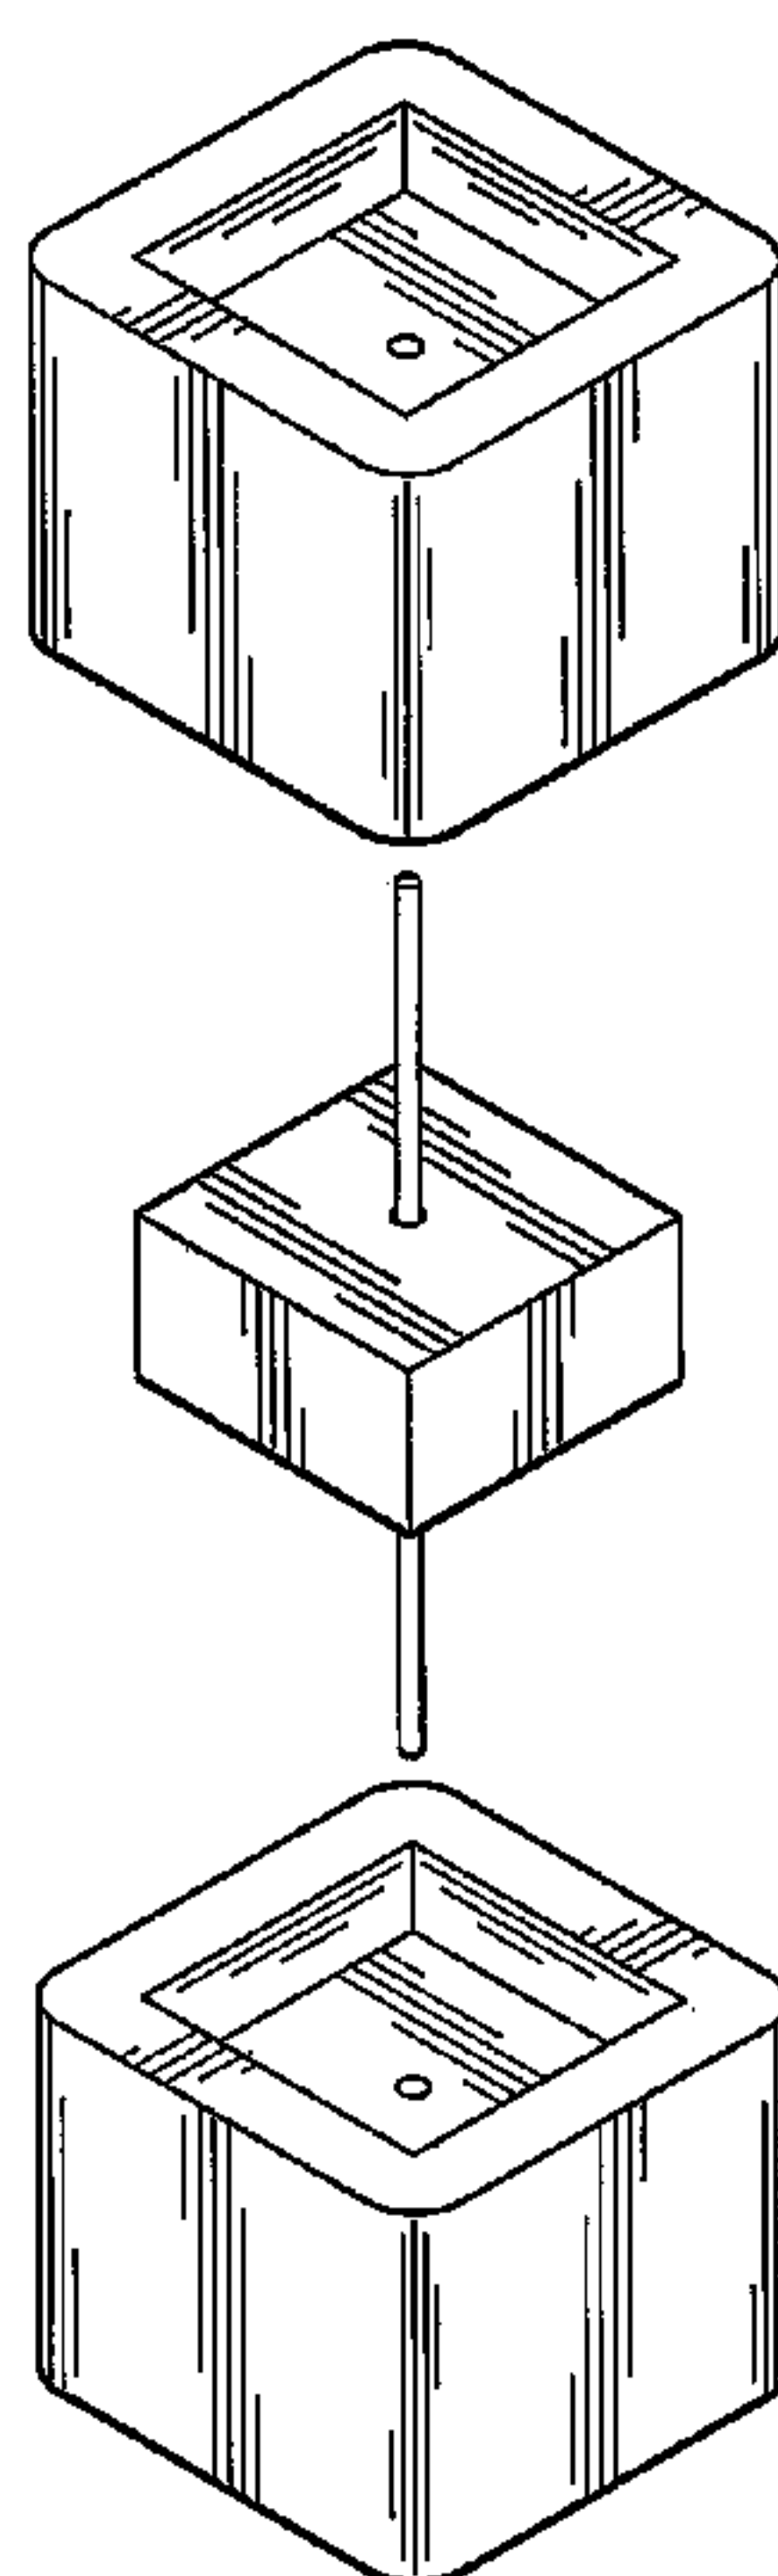

FIG. 6 is a first side elevational view thereof, the other three
side elevational views being identical thereto;

FIG. 7 is a top plan view of a third element of a set of
components for a bed riser embodying my new design; the
bottom plan view being identical thereto;

FIG. 8 is a first side elevational view thereof, the other three
side elevational views being identical thereto; and,

FIG. 9 is an exploded view showing the relationship between
the three elements described above when assembled.
