(57) **CLAIM**

We claim, the ornamental design for a portable information terminal, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a portable information terminal showing new design;
FIG. 2 is a rear view thereof;
FIG. 3 is a right side view thereof;
FIG. 4 is a left side view thereof;
FIG. 5 is a top view thereof;
FIG. 6 is a bottom view thereof; and,
FIG. 7 is a bottom left side perspective view thereof.
The portable information terminal is used in a state in which the portable information terminal is worn or carried on arms, legs, etc. The portable information terminal can function as a computer, a media reproducing device (e.g., a music player, a video player, or a game player), a media storage device, a communication device (e.g., a mobile phone), a health-care device (e.g., a device including a sensor to detect a pulse, a blood pressure, or a body temperature), or the like, for example.
