(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a first embodiment of a display screen with animated graphical user interface showing my new design;

FIG. 2 is a front view of a second image thereof;

FIG. 3 is a front view of a first image of a second embodiment of a display screen with animated graphical user interface showing my new design;

FIG. 4 is a front view of a second image thereof;

FIG. 5 is a front view of a third image thereof;

FIG. 6 is a front view of a first image of a third embodiment of a display screen with animated graphical user interface showing my new design;

FIG. 7 is a front view of a second image thereof;

FIG. 8 is a front view of a first image of a fourth embodiment of a display screen with animated graphical user interface showing my new design;

FIG. 9 is a front view of a second image thereof; and,

FIG. 10 is a front view of a third image thereof.

In the first embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 through 2. In the second embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 3 through 5. In the third embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 6 through 7. In the fourth embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 8 through 10. The process or period in which one image transitions to another image forms no part of the claimed design. The broken line showing of a display screen in FIGS. 1 through 10 forms no part of the claimed design. The broken line showing of the remainder of the graphical user interface in FIGS. 1 through 10 represents environmental subject matter and forms no part of the claimed design.

1 Claim, 10 Drawing Sheets
